

Professional Development Committee Report to the Academic Senate
October 31st/2018
By John Giertz

Due to unexpected circumstances, the committee has only met twice this semester and therefore, are a little behind in some of our business. During our next meeting we will

1. Discuss and approve changes to our charge and scope of authority statements.
2. Begin discussion of an all employee survey regarding professional development. The last survey was conducted in the spring of 2013.
3. Continue discussion of how to better advertise the scholarship opportunities for classified staff. Very few staff have ever apply.

To date there has been only 1 application, which was approved, for a faculty scholarship for travel.

Reminder to all Senate reps: Please encourage any faculty who want to attend any conferences that there are \$ 500.00 reimbursement scholarships. The application form is available at the Professional Development Committee website.
