

BAKERSFIELD COLLEGE EQUIVALENCY PROCEDURES

SECTION 1 PHILOSOPHY

- 1.1. The equivalency process will enable the college to maintain academic integrity, not by waiving minimum qualifications, but by facilitating the hiring of qualified individuals.
- 1.2. Faculty, with their professional expertise, are best able to determine whether a candidate's qualifications are the equivalent of the minimum qualifications.
- 1.3. The equivalency process allows applicants who provide evidence that they have education or experience at least as good as that required by the minimum qualifications to be given careful consideration, even if their formal education is not identical to degree requirements or they have acquired their qualifications by a route other than the conventional one.

SECTION 2 CRITERIA FOR DETERMINING EQUIVALENCIES TO MINIMUM QUALIFICATIONS

- 2.1. Equivalency will be determined by the application of one or more of the following criteria, based on Board Policy Procedures.
- 2.2. Except in special cases, Degree Equivalence shall be provided based on evidence of coursework completed at postsecondary institutions, including general education and the major required for the degree.
- 2.3. In special cases, Professional Achievement Equivalence based on experience, work, independent education, or academic/artistic/vocational products that can be shown to have generated the equivalent knowledge, including general education and the major required for the degree, may be considered the equivalent of the degree, in accordance with current law.
 - 2.3.1. For the equivalent of the required experience, alternative ways of achieving mastery of the skills of the vocation and knowledge of the working environment of the vocation may be considered. However, there must be evidence of mastery of general education skills, including competency in reading, written expression at the level of Freshman Composition, and math at the level of Intermediate Algebra.

SECTION 3 EVIDENCE TO SUPPORT EQUIVALENCE

- 3.1. One or more of the following are needed to support equivalence criteria:
 - 3.1.1. Official transcripts showing that appropriate courses were successfully completed at an accredited college or appropriate foreign institution.
 - 3.1.2. A certificate(s) and/or other document(s) showing that appropriate workshops, seminars, etc., were successfully completed.
 - 3.1.3. A detailed work history, including references.
 - 3.1.4. Academic, artistic, or vocational products.

- 5.2. The Senate Equivalency Committee’s final recommendation, in affirmative cases, shall be forwarded to the screening committee and Academic Senate, who will report to the Board of Trustees via Human Resources. Human Resources will include the affirmative equivalency determination in the hiring packet sent to the Board of Trustees for approval. A written rationale and evidence shall accompany the approved applications. In cases where equivalency is not granted, the committee will report to the screening committee.
- 5.3. The Senate Equivalency Committee shall evaluate the request using the criteria in Section 2 and the evidence in Section 3. At least six members of the Senate Equivalency Committee must agree with the request in order for equivalency to be approved.
- 5.4. In special cases, when regular contract faculty are off contract and not available, the Senate Equivalency Committee chair may meet with the area dean and appropriate department chair to review applications and make a preliminary determination as to equivalence. Criteria in Section 2 and evidence in Section 3 will be used to make the determination.
 - 5.4.1. When a preliminary determination of equivalence is made, the decision will be reviewed by the Senate Equivalency Committee for final determination at their next regularly scheduled meeting.
- 5.5. The Academic Senate may present its views to the Board of Trustees regarding each specific case of equivalency, being mindful of the confidentiality of each application.
