Notes

- Information displayed will continue to be updated for this metric as students are found meet the criteria in the metric definition. Since the timeframe for data collection to construct this metric within this cohort view is still open, the data displayed for these metrics will continue to be updated.
- A student could be included as part of the first-time cohort at more than one college if the student's first-time NSA enrollment is in the same term with 0.5 credit units at each college
- This definition does NOT include students who may have been enrolled in the selected year or any time prior as a special student as long as the student enrolls as a first-time in higher ed NSA credit student in any term of the year
- If a student is a first-time NSA credit student in Spring 2020 and has "EW" for all credit courses in that term, then the student is included in the SSM All Student Cohort since colleges differed in how they applied EW enrollments in Spring 2020 due to the pandemic
- However, if a student is a first-time NSA credit student in any other term besides Spring 2020 and has "EW" for all credit courses in that term, then the student is not included in the SSM All Student Cohort
- Students who receive "MW" in all courses in their first NSA credit term are not included in the SSM All Student Cohort
