3. Annually review, modify, and communicate the criteria for making budget decisions for the coming fiscal year.
4. Monitor funding formula terms to devise strategies to maximize funding.

## Announcements:

- The District-Wide Budget Committee (DWBC) met on February 6, 2026, for the first time since March 2025 to review an early, tentative look at the Governor's proposed 2026–2027 budget and the Kern Community College District's preliminary budget outlook.
  - The Governor's proposal includes a 2.41% COLA for community colleges, modest enrollment growth, continued base funding, and several one-time investments supporting capital projects, student services, deferred maintenance, and Credit for Prior Learning, while some categorical programs remain flat.
  - The committee also reviewed a preliminary District Office budget that includes projected increases in salary and benefits, non-labor costs, system modernization, and select staffing additions; however, it was emphasized that this budget is still subject to change and does not yet reflect all Allocation Unit Revenue Streams (AURS).
  - The committee committed to resuming monthly meetings moving forward, with future discussions focused on AURS and continued refinement of the district's budget development process. (Documents attached)
- The committee reviewed the FY26-27 Budget timeline.
- DR. King provided the committee with a detailed overview of our scheduled deferred maintenance. Attached is a summary of the requests and potential allocations through FY28-29.
- Student housing financing was discussed in detail. In response to a 2024 budget deficit, the Governor has converted the \$60 million initial grant awarded in 2023 into a loan. The Board of Trustees is considering other financing options to cover the \$55 million in construction costs.

One consideration is a Certificate of Participation, a tax-exempt financing tool for public institutions that does not require public voting.

- Dr. King provided an update on the Governor's tentative budget. 2.41% COLA, including categorical. .5% growth for 26/27 and an adjusted growth of 1% for 25/26. Fine Arts and the Center for Success have been approved and moved up to 26/27. There is also a deferred maintenance allocation.
