PRESIDENT'S MESSAGE:

For over 100 years, Bakersfield College has been at the forefront of intellectual, cultural and economic vitality in our community. Every piece of our institutional structure is vital to the engine that propels our College and our community forward. Our Strategic Directions, just like the intentional work of Guided Pathways, helps us to remain focused on creating A Better BC and an environment that fosters student success. We're bridging the gaps between outreach, counseling and academic support services while restructuring the flow of curriculum via meta-majors in order to ensure that our students are supported along every step of their educational journey. Our efforts are led by these strategic directions and we're continuously inspired by our students.

In 2016, we came together as a campus and community of dreamers and go-getters. Through the A Better BC campaign, our campus successfully secured over \$500 million for construction and renovations to the Kern Community College District. The campaign for Measure J required collaboration between faculty and staff, political and industry leaders, and the volunteer efforts of hundreds of people doing outreach in the community to raise awareness of why this bond measure was crucial for the future of education in Kern County. Looking back on the Measure J campaign, I'm struck by the tremendous vision and extreme attention to detail required to undertake a project of that magnitude.

Conversely, our Strategic Directions Report is the culmination of our entire campus coming together with an ambitious vision and meticulous planning to examine every facet of this institution, from curriculum and communication to operations and finances. It took a monumental effort from everyone in the BC community to tell the story of how BC continues to grow and improve. It's important to note that the information contained in this report are directions, not goals. Goals denote an eventual end point, while directions continue to point the way toward ever-evolving, ever-innovating growth. Using these strategic directions as our guide, Bakersfield College has a bright, sustainable, and responsible future ahead which will benefit students for the next 100 years to come.

It's an exciting time to be at BC.

EXECUTIVE SUMMARY

Early in the last year of the 2015-2018 Strategic Directions plan, a core team was identified to lead the effort in evaluating the college strategic directions and updating the initiatives for the new 2018-2021 Strategic Directions plan. One of the first steps was to review the previous strategic directions development process and look for ways the process and the initiatives could be improved. The team also developed a timeline for soliciting initiatives and involving the campus, along with the various committee approvals, and ultimately with a date for getting approval from the KCCD Board of Trustees.

Looking at improving on the next set of initiatives, the team identified some areas that could be improved. First, initiatives should be clearly stated and must be measurable. Second, to make initiatives easily measurable, they need to be singular. Third, the team wanted to make sure initiatives did not lend themselves into being scored as “perpetually in-progress” but instead were clearly initiatives deliverable within a 3-year period. Finally, the team improved on the previous scoring mechanism by identifying a lead for each initiative that would be responsible for the final score.

Over the course of the 2017-2018 academic year, the team worked with various governance committees, Presidents Cabinet, Admin Council, and College Council to solicit initiatives. There were open forums at both the main campus and the Delano campus for soliciting input and initiatives. The team also looked at some of the key work being done with Guided Pathways, Rural Initiatives, High Schools, Measure J projects, technology software implementations, and a long list of other college efforts. By late March 2018, the team had solicited over 200 possible initiatives and began the work of reducing the results into the most strategic and appropriate for a 3-year plan.

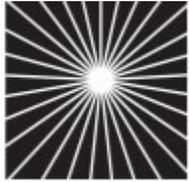

In the 2015-2018 Strategic Directions plan, there were five major Strategic Directions: Student Learning, Student Progression and Completion, Facilities, Oversight and Accountability, and Leadership and Engagement. During the analysis and feedback of the previous plan, the decision was to make two adjustments to the previous directions. The first adjustment was to update the Facilities direction to Facilities & Technology to better represent the initiatives in that section. The second adjustment was to remove the Oversight and Accountability direction and embed that direction into the other Strategic Directions.

On April 9, 2018, Presidents Cabinet was presented the first draft of the strategic initiatives with an opportunity to provide feedback and guidance. That input was included and on April 11, 2018, the strategic initiatives were presented to Academic Senate for the first read and a final approval on XXXXXXX. On April 20th, College Council was presented the initiatives for a first read, with a final approval on XXXXXXX. Ultimately the Strategic Directions will be approved at the June 2018 Board Meeting.

The core team is excited about all the work done and the new initiatives that will guide the college for the next 3 years. We look back at all that’s been accomplished and yet anxious to continue the work for future. It’s a good time to be at BC!

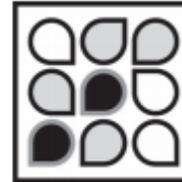

BAKERSFIELD COLLEGE

CORE VALUES

Learning

We foster curiosity, inquiry, critical thinking, and creativity within a safe and rigorous academic environment so that we might be empowered to radically transform our community into one that gives voice and power to all people.

Diversity

We insist that diversity be valued and promoted, recognizing that multiple perspectives lead to a better education and knowledge of the world; listening and witnessing different experiences helps us to understand and contextualize power and privilege related to gender, race, class, religion, disability, and sexuality in terms of access and barriers to resources and

Integrity

We continue to develop and follow an ethical and moral consciousness which places the collective wellbeing and health above the self; this principled environment allows for open, constructive conversations and teaches us to trust each other's vision so that we will be useful and effective in providing support, resources, and encouragement.

Community

We commit to the wellbeing of all members of our community; we maintain strong ties with the surrounding community, and we respond to their needs by serving as an open institution which engages all students, faculty, and staff; in our college, we have built and continue to build an environment in which all members participate as a community through

Wellness

We believe health and wellness to be integral and foundational elements, and we understand that a holistic education improves all aspects of the individual and the society including the mind, body, and spirit; through education, we will positively impact the health of the natural environment and the global community.

Sustainability

We recognize our responsibility for continuing and maintaining this institution which has been shaped by over 100 years of resolute and tenacious labor and judicious foresight, so we unceasingly place our energies into imagining how we might sustain and renew our fiscal, human, and environmental resources into the future.

BAKERSFIELD COLLEGE MISSION STATEMENT

Bakersfield College provides opportunities for students from diverse economic, cultural, and educational backgrounds to attain Associate and Baccalaureate degrees and certificates, workplace skills, and preparation for transfer. Our rigorous and supportive learning environment fosters students' abilities to think critically, communicate effectively, and demonstrate competencies and skills in order to engage productively in their communities and the world.

Approved by Academic Senate, March 25, 2015

Approved by College Council, April 2, 2015

Approved by Board of Trustees, May 7, 2015

VISION

Building upon more than 100 years of excellence, Bakersfield College continues to contribute to the intellectual, cultural, and economic vitality of the communities it serves.

2018-2021 STRATEGIC DIRECTIONS FOR BAKERSFIELD COLLEGE

Student Learning

A commitment to provide a holistic education that develops curiosity, inquiry, and empowered learners.

Student Progression and Completion

A commitment to eliminate barriers that cause students difficulties in completing their educational goals.

Facilities and Technology

A commitment to improve the maintenance of and secure funding for college facilities, technology, and infrastructure for the next thirty years.

Leadership and Engagement

A commitment to build leadership within the College and engagement with the community.

ROAD MAP TO INSTITUTIONAL EFFECTIVENESS AND STUDENT SUCCESS

The following pages include the initiatives developed for each of the 2018-2021 Strategic Directions. The intent is to complete the initiatives over the course of the three-year cycle. Each year the College will evaluate the progress made on each initiative.

Annual reports will be due in late spring and will focus on the status of the initiatives. Using the icons below, the scorers will report on the progress of each initiative. Green means an initiative has been completed, yellow indicates the work is in progress, and red shows that work has not yet begun. Initiatives with yellow or red icons will need to include action plans for completion. Scorer reports will be directed to the Accreditation and Institutional Quality Committee (AIQ) for review. Following its charge, AIQ will “review and monitor evaluation activities to ensure they result in integrated, meaningful, and sustained college improvement.” AIQ will analyze the scorer reports, create a summary, and present the information to College Council in late Spring.

A scorecard of the initiatives with the most recent score will be available on the Bakersfield College web site.

Alignment with Guided Pathways

An institution-wide approach to student success based on intentionally designed, clear, coherent, and structured educational experiences, informed by available evidence, that guide each student effectively and efficiently from his/her point of entry through to attainment of high-quality postsecondary credentials and careers with value in the labor market.

Clarify - Clarify the Path (Mapping Pathways to Student End Goals)

Enter - Enter the Path (Intake)

Stay - Stay on Path (Intrusive Advising and Academic Support)

Ensure - Ensure Learning (Learning with Intentional Outcomes)

With each initiative in our Strategic Directions, if there is alignment with one of our four Guided Pathways pillars, we have noted that in the following sections. Including the alignment was just one more way Bakersfield College is demonstrating the integrated work of the college.

General Notes

Note #1: Some initiatives are numbered with an “a” and “b” after the initiative number, for example, initiative 3.6a and 3.6b. When there is an “a” and “b” designation it means that “b” is dependent on “a” being done first.

Note #2: There is not an expectation every initiative is tied to a specific Guided Pathway. Instead, when an “X” designates a specific pillar, it is just a visual representation of the integration of Guided Pathways throughout the strategic plan.

Note #3: There are some situations where an initiative may be aligned with more than one pathway.
