

Salutations Bakersfield College's Associated Student Body,

I would like to serve in a Judicial position at Bakersfield College because I have noticed that the Judicial branch of the Student government needs to have members listed on its website. I hope to contribute towards building a better student community at Bakersfield College, by making sure that existing protocols are being followed. I have volunteered with a few public service organizations and have taken a law enforcement class at the Career Technical Education Center. These previous experiences have sharpened my knowledge of the Judicial system and how it can be used to make sure everything runs smoothly. The Judicial branch is a much-needed branch to help the student government operate. Student government is needed to give students a voice on campus, organize student events/activities, and regulate/assist student organizations that exist on campus.

I hope that you will consider me for this position,
Thank you for your time and consideration in reviewing my application,
Eric Testori
