

Letter of Intent

September 23, 2024

Bakersfield College Student Government Association

Dear BCSGA,

I am Karen Munoz, a third year biology major student at Bakersfield College, and I am interested in becoming a Senator at Large. I am interested in this position because I am passionate about advocating and becoming a voice for others. I want to represent those in my community. As a first generation college student, I understand some of the challenges that we face, therefore I want to be able to communicate those issues and find solutions. This will allow me to connect with others who want to do the same and advocate for issues on our campus. I have experience leading groups and organizing events because during high school I spent four years as a very active ASB member. From attending leadership conferences to further my experience, to organizing rallies, dances, and much more. Not only have I practiced these skills in a school setting, I have also used my skills in my work setting. I work for an after school program with KCSOS. In this program we have to organize activities for elementary students. We also have to teach them different STEAM activities, within these lessons I also practice my communication skills. I believe I am an effective communicator, which allows me to advocate for others. I am also successful when working with others, I am always flexible and can find solutions. These skills will allow me to contribute to the BCSGA, and improve the student life in my community. Bakersfield College has a student government to advocate for community college students. The student government works as a voice for those who want to share issues or concerns regarding their campus. Whether it's organizing events to make everyone feel welcomed or providing students with different resources, Bakersfield College has a student government to make sure everyone feels involved on their campus.
