## OBJECTIVE

---

As a student studying to become a Doctor of Osteopathic Medicine (D.O.) with a focus in functional medicine, I am dedicated to community leadership through education, public health advocacy, and environmental sustainability. I am currently building The Flower of Life Project under my nonprofit, Inspire Kingdom Enterprise, to develop inclusive, faith-based educational programs that empower individuals and families to take part in their own healing through holistic, sustainable practices. My mission is to bridge diverse communities by promoting health equity, cultural respect, and resilience through knowledge-sharing, environmental stewardship, and wellness education.
