

To Student Government Association,

My name is Baljinder Aulakh, but for short I go by Bill. I am excited to apply for the Judicial Review Board Justice position because I am a strong believer in fairness, holding people accountable for their actions, and creating a campus community where everyone can feel safe and trusted. I have participated in leadership positions and student government throughout my academic years. I held multiple positions in the Associated Student Body (ASB), including Advisor Chair, President Chair, Finance Chair, and Ambassador Chair. The different roles I have held have presented me with unique obstacles and abilities. As the Advisor Chair, I have had to learn how to guide others and support them while ensuring that the team works towards a common goal. As President Chair, I have had to increase my responsibility and integrity while being a representation of my fellow peers. Through each of these experiences, I have come to learn that leadership is not a position of authority but one of service, respect, and responsibility. I know to be a Justice on the Review Board will require me to provide sound judgment, maintain confidentiality, and be unbiased in my actions. I am excited about the opportunity to help build a community on campus where students feel safe, respected, and heard. It would be an honor to serve as a part of the Judicial Review Board to help create and uphold the values of integrity, fairness, and accountability. I believe Bakersfield College has a Student Government because a student should have the right to have their voice heard. It is a lot different from a student. A student knows what other students have issues with or are dealing with. It is extremely vital that there is always a Student government.

Sincerely, Baljinder Singh Aulakh
