

Letter of Intent – Public Relations Director

Davon Kennedy

2025, Freshman

Bakersfield College

To the Bakersfield College Student Government Association,

I am writing to formally express my intent to serve as a Senator in the Bakersfield College Student Government Association. I am eager to use my leadership skills, public speaking abilities, and dedication to advocacy to represent the voices of my peers and contribute to meaningful change on our campus.

As a communicator and leader, I have developed strong skills in public speaking, relationship-building, and problem-solving. I know how to listen actively, collaborate with others, and speak confidently on behalf of those I represent. These skills will allow me to be an effective Senator who can bridge the gap between students, faculty, and administration.

I am interested in this position because I believe student government plays a vital role at Bakersfield College. The Student Government Association exists to advocate for student needs, provide leadership opportunities, and strengthen our campus community. As Senator, I would work to ensure that student concerns are heard, resources are accessible, and opportunities for growth are available to all.

My goals include supporting initiatives that improve student life, promoting engagement in campus events, and ensuring transparency in student government decisions. I want every student to feel connected, valued, and empowered during their time at Bakersfield College.

Thank you for considering my application. I would be honored to serve as Senator and to contribute to the continued success and spirit of Bakersfield College.

Sincerely,

Davon Kennedy
