## **RE: Letter of Intent for Senator-at-Large Position**

### **1. Why I am interested in being appointed to this position**

I am seeking this appointment because I believe that student voices are the most vital component of participatory governance. My primary motivation is to play an active role in representing the student body and contributing to decisions that directly impact our academic experiences and access to resources. I am driven by the desire to ensure that student concerns are not only heard and respected but are translated into meaningful action. Serving as Senator-at-Large would allow me to advocate for my peers while gaining a deeper understanding of institutional leadership and the policy-making processes that shape our success.

### **2. Skills that will help me be successful in this position**

I bring a combination of communication, organization, and collaboration skills that are essential for effective service in the Senate. I have the ability to listen carefully to diverse perspectives, articulate concerns clearly, and work productively within a team environment. My approach to leadership is defined by:

- **Accountability:** I am detail-oriented and committed to the transparency required when reviewing legislation and allocating student funds.
- **Dedication to Service:** My current goal of becoming a peer tutor demonstrates my commitment to mentorship and supporting the academic growth of my fellow students.
- **Professionalism:** I am prepared to serve with integrity and a high sense of responsibility to ensure the Senate remains a reliable resource for the student body.

### **3. Why Bakersfield College has a student government**

Bakersfield College maintains a student government to ensure that students have a formal, recognized voice in the institution's decision-making process. The BCSGA exists to promote shared governance, acting as a bridge between the student body and the administration. By advocating for student interests and allocating resources responsibly, the student government fosters a culture of civic engagement and leadership. Ultimately, it ensures that every college initiative and policy is designed with the needs, concerns, and priorities of the students in mind.

In closing, I am eager to contribute my time and commitment to the Student Government Association. I am confident that my background and passion for service make me a strong candidate for Senator-at-Large. Thank you for your time and for considering my application.

Sincerely,

**Bryan Melchor**
