I accidentally checked a box saying i wanted it while paying for my classes online. i never figured out how to cancel the order i also never went to pick up the card so i never used the benefit because i did not intend to buy it. there needs to be a way to cancel your order before you pay so you don't not need to go through all this. it seems like a good program i just do not need it at this moment maybe in the future. and needing a 100 words is really great idea yup wow.

I am requesting a refund due the fact that not only have I been unaware of the sticker and all that comes with it, a refund would actually assist in some of my financial issues that I do have. Because of me constantly having financial issues, I do not attend BC events at all, nor do I indulge in any activities that may be associated with businesses through the KVC sticker. For the past four years I've been paying for this service that I didn't use(this was because the SGA didn't advertise it) nor need due to me having to direct my money in a different direction. I feel that this sticker is for students that are able to leisurely spend money and participate on campus during events, not for students that have to strategically spend money due to financial difficulties.
