I do not use the perks of having benefits like this, and I find that I can't pay for it financially this is why I would like to appeal to have it removed from my account because I don't use the benefits that come with having the service unfortunately. This is my first semester in person and I only really go to class and come back home I don't stay for the extracurricular activities that the school provides. This is why I would like to get the charges taken off because I do not use the benefits from this program.
