

HOPES ICC PROPOSAL

SHPE

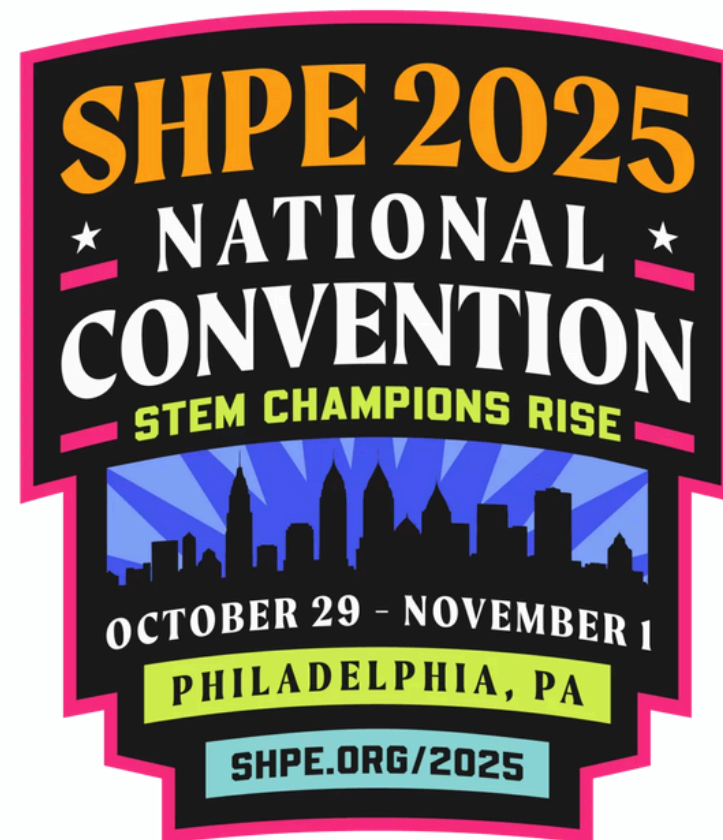

Leading Hispanics in STEM®

What is HOPES/SHPE?

The Hispanic Organization Promoting Engineering and Science **promotes the advancement of Science, Technology, Engineering, and Mathematics (STEM) within the Hispanic community.** HOPES is dedicated to preparing individuals for real-world professional careers by fostering essential soft skills like communication, teamwork, and leadership.

HOPES is a chapter of the Society of Hispanic Professional Engineers (SHPE), which is a national organization **dedicated to empowering and connecting Hispanic engineers with companies and industry partners.**

All About The Convention

The 2025 SHPE National Convention in Philadelphia is a premier hub for Hispanic STEM talent, offering unbeatable networking and career-launching opportunities through employer meetups, workshops, and competitions. It also fosters student wellness through community building, supportive programming, and a welcoming “Familia” environment.

Benefits

Why Should This Matter To You?

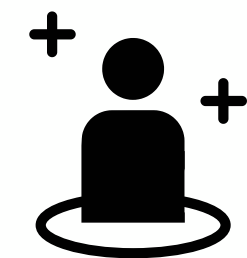

1

Students learn how to lead by example and can forward this information to other engineering students.

2

The only chapter to represent Bakersfield College and the local Latino community.

3

To build a network with other SHPE Chapters and industry partners to further our effort in uplifting emerging Hispanic engineers

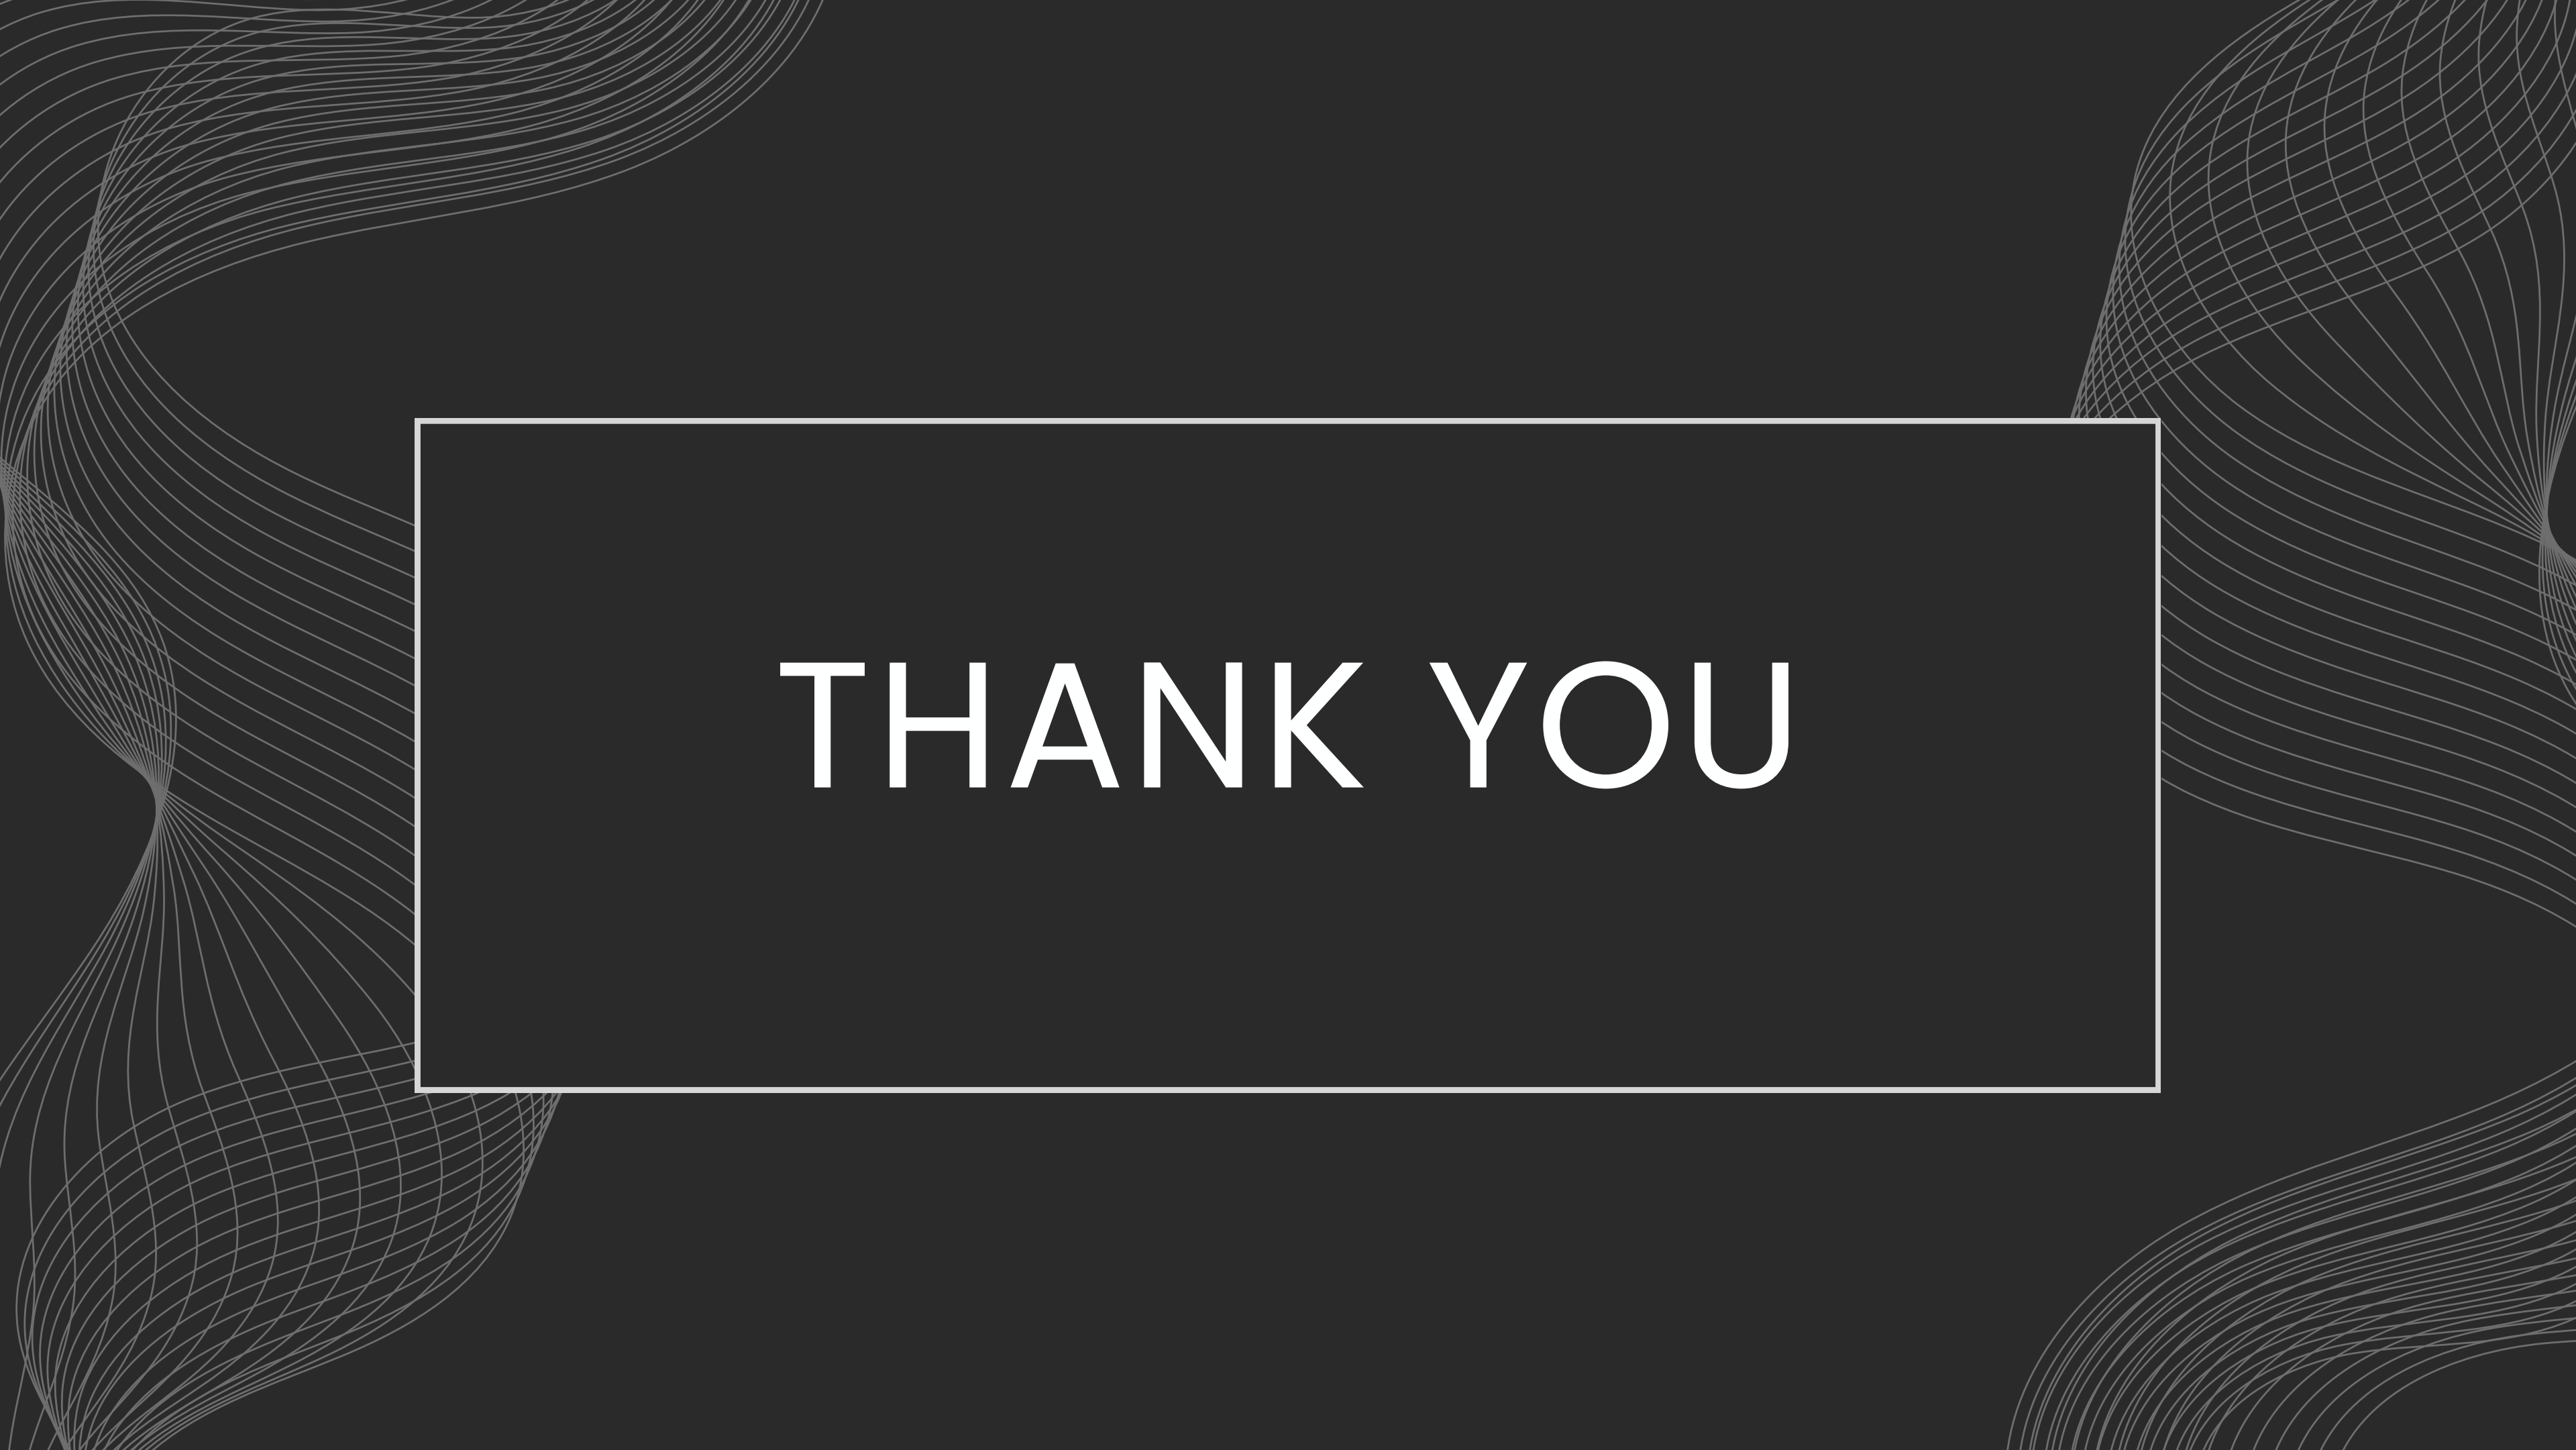

4

Providing professional development through internship, mentorship, and graduate school opportunities.

Budget

- **Requesting full Travel Grant: \$1000.00**
- **Will be spent on registration: \$345.00 per registration ticket**
- **Three (3) registrations in total: \$1035.00**
