As the advisor for HOPES,

I fully support their application for funding to participate in this valuable opportunity. These students have demonstrated exceptional commitment, teamwork, and academic excellence. Their involvement not only highlights the capabilities of Bakersfield College students but also amplifies voices from low-income and historically underrepresented communities in STEM.

This experience will provide them with meaningful exposure, professional development, and the chance to represent our college with pride. I strongly believe that investing in their participation aligns with our institution's mission to promote equity, access, and student success. I urge you to consider this request and support their journey toward academic and professional advancement.

Sincerely,
Consuelo Gonzalez
MESA Director
