President's Message:

A highlight of my recent trip to Rome was gazing in stunned awe at Michelangelo's unparalleled Sistine Chapel ceiling. Studying one of the planet's seminal works of art up-close, I was struck by the tremendous vision and extreme attention to detail required to undertake a project of that magnitude.

Great works demand the coming together of great vision, great attention to detail and careful planning.

While I'd never presume to put the work of BC's best alongside Michelangelo, Bakersfield College's 2015-2018 Strategic Directions is the result of full engagement of the campus with an ambitious vision and meticulous evaluation and planning by the dream team that undertook this work.

Since 2013, BC carefully examined every facet of this institution. We've spent countless hours evaluating curriculum, communication, operations and finances. We've defined what's working, what isn't, what needs to be prioritized and, perhaps most importantly, who's ultimately responsible for making these priorities an achievable reality.

Obviously, charting BC's course ahead is no simple task. But these guidelines serve an overriding core vision: massing campus resources behind student learning, honing communication skills with an eye toward crafting the most prepared thinkers and learners of the future.

Great works also demand another, equally critical component. They all feature a command of the crucial detail work needed to make an individual piece fit within the greater whole.

That's where the talent and expertise of our BC faculty, staff and administrators come into play. These Strategic Directions combine clarity with flexibility, offering department leaders the means to chart their own best practices for achieving our collective direction.

And these are directions, not goals. Goals denote an eventual ending point. Directions point the way toward ever-evolving, ever-innovating growth.

We're all instrumental in keeping Bakersfield College at the vanguard of local intellectual, cultural and economic vitality. So study up...and let's go to work.

Executive Summary

In 2011 Bakersfield College developed its *2012-2015 Strategic Plan*. Along with a small team, new college president Sonya Christian examined all major planning documents and refocused college efforts in the first *Bakersfield College Strategic Focus 2012-13* introduced Opening Day, January 11, 2013. That summer the College President convened a broader group to review and update the document. The group used the most recent Committee Reports to develop the original Strategic Initiatives, which represent the College's commitment to achieving its goals. The College President presented the *Bakersfield College Strategic Focus 2013-14* at Opening Day, August 21, 2013. The six goals (Student Success; Professional Development; Communication; Facilities, Infrastructure, and Technology; Oversight and Accountability; and Integration) became the focus for Committee and Management Action Plans.

In 2014, the President established the Strategic Directions Core Team, Task Force, and Support Team to develop two deliverables: A *Strategic Directions 2015-16—2017-18* document that that would discuss the development process; identify key challenges; and describe college goals, data strands, and initiatives; and develop and maintain a website that would include the primary document as well as all the supporting materials. The Core Team would complete the work for Academic Senate and College Council presentations and voting by April 2015.

The Core Team set up a plan to study the issues (national, state, local, district, and college) and to work with the college committee structure and college leadership to develop goals, gather feedback, and brainstorm initiatives. The Core Team led a retreat in December to develop the college goals. In early 2015, team members held focus groups with all college committees to show them the proposed goals, ask for feedback, and brainstorm initiatives to accomplish the goals. The committee also provided an online survey to solicit initiatives. In March 2015 the Core Team held a Task Force Retreat to take the input from the focus groups, finalize goals, and develop initiatives. At this stage of the process the team focused on the change from Strategic Goals to Strategic Directions. The word "directions" has multiple connotations. The team focused on two: directions in the sense of following a route and in the sense of how to put something, like an effective institution, together.

The Academic Senate formally approved the five Strategic Directions (Student Learning, Student Progression and Completion, Facilities, Oversight and Accountability, and Leadership and Engagement) and commitment statements March 25, 2015; College Council approved them April 2, 2015.

On May 1, 2015, the Core Team led the College Leadership Year-End Review & Planning Meeting to evaluate college accomplishment of the *Bakersfield College Strategic Focus 2013-14* initiatives and to present the new Strategic Directions and Initiatives. The Core Team had identified key challenges in developing and implementing initiatives to accomplish the Strategic Directions: all initiatives needed to be measurable, tied to a responsible party for reporting and closing the loop, and embedded in Committee and Management goals and work plans for the next three years. Along with the initiatives, the Strategic Directions tables included the following questions: "How will you evaluate and document the initiative's success" and "What committee or position would be responsible? (The person closing the loop and reporting out)." An annual College Leadership Year-End Review & Planning Meeting will answer the questions, discuss and grade the work done on the initiatives, and plan for the following year.

Bakersfield College

Core Values

Learning

We foster curiosity, inquiry, critical thinking, and creativity within a safe and rigorous academic environment so that we might be empowered to radically transform our community into one that gives voice and power to all people.

Integrity

We continue to develop and follow an ethical and moral consciousness which places the collective wellbeing and health above the self; this principled environment allows for open, constructive conversations and teaches us to trust each other's vision so that we will be useful and effective in providing support, resources, and encouragement.

Wellness

We believe health and wellness to be integral and foundational elements, and we understand that a holistic education improves all aspects of the individual and the society including the mind, body, and spirit; through education, we will positively impact the health of the natural environment and the global community.

Students first: We affirm our focus on our students and their success.

Diversity

We insist that diversity be valued and promoted, recognizing that multiple perspectives lead to a better education and knowledge of the world; listening and witnessing different experiences helps us to understand and contextualize power and privilege related to gender, race, class, religion, disability, and sexuality in terms of access and barriers to resources and opportunities.

Community

We commit to the wellbeing of all members of our community; we maintain strong ties with the surrounding community, and we respond to their needs by serving as an open institution which engages all students, faculty, and staff; in our college, we have built and continue to build an environment in which all members participate as a community through democratic engagement.

Sustainability

We recognize our responsibility for continuing and maintaining this institution which has been shaped by over 100 years of resolute and tenacious labor and judicious foresight, so we unceasingly place our energies into imagining how we might sustain and renew our fiscal, human, and environmental resources into the future.

Institutional Strategy Map

Road Map to Institutional Effectiveness and Student Success

The following pages include the initiatives developed for each of the 2015-2018 Strategic Directions. The intent is to complete the initiatives over the course of the three-year cycle. Each year the College will evaluate the progress it has made on each initiative.

Fall Committee Reports due in early November will focus on the status of the initiatives aligned with committee work. Using the icons below, the committees will report on their progress. Green means an initiative has been completed, green and yellow together represent work perpetually in progress, yellow indicates the work is in progress, and red shows that work has not yet begun. Initiatives with yellow or red icons will need to include action plans for completion. Committee Reports will be directed to the Accreditation and Institutional Quality Committee (AIQ) for review. Following its charge, AIQ will “review and monitor evaluation activities to ensure they result in integrated, meaningful, and sustained college improvement.” AIQ will analyze the Committee Reports, create a summary, and present the information to College Council in early December.

At the end of each academic year, committees will follow the same process, with AIQ presenting the analysis to the annual College Leadership Year-End Review & Planning Meeting.

Green means an initiative has been completed.

Green and yellow together represent work perpetually in progress.

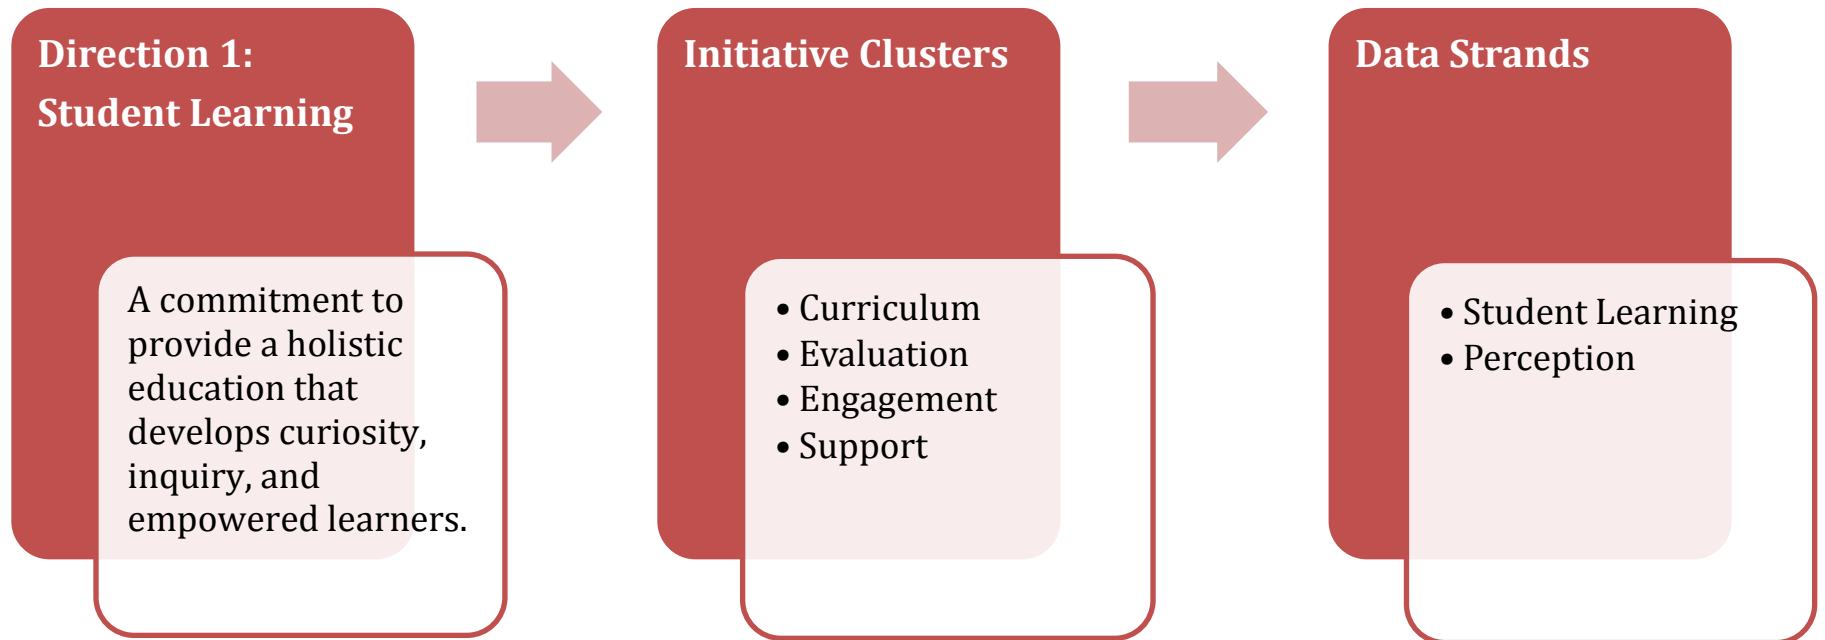

Yellow indicates the work is in progress.

Red shows that work has not yet begun.

Initiatives with yellow or red icons will need to include action plans for completion.
