

CLOSING THE LOOP ~ BAKERSFIELD COLLEGE

Closing the Loop Document started in the spring of 2013 and was presented to College Council. The idea behind this document is to connect how resource allocation is connected to the strategic goals of the college. Since then, this document serves as a tool to reflect on the progress of the strategic goals and to calibrate the activities of Bakersfield College. This document is the result of the work of several governance and campus-wide committees' efforts along with the responsible lead administrator. It is a compilation of metrics showing results.

Dr. Sonya Christian, President

May 2018

Prepared by:

Budget/Finance -- Dr. Don Chrusciel, Zach Quiroz & Somaly Boles;

Contribution from:

Personnel (Section A) -- Nan Gomez-Heitzeberg, Dena Rhoades, Tracy Hall, & Jennifer Marden;

Technology (Section B) -- Todd Coston, Richard Marquez, & Kristin Rabe;

Facilities (Section C) -- Bill Potter & Jim Coggins;

Professional Development (Section D) -- Bill Moseley & Reese Weltman;

Categorical & Grants (Section E) -- Dr. Zav Dadabhoy, Terri Goldstein, Jennifer Achan & Lesley Bonds;

Grants: Title V, BSI, STEM, CTE/VTEA -- Nan Gomez-Heitzeberg, Liz Rozell, Steven Waller, Kimberly Bligh, & Cindy Collier;

Distance Learning (Section F) -- Bill Moseley

BUDGET AND FINANCE

Fiscal Period	2014-15	2015-16	2016-17	2017-18	Tentative 2018-19
Total GU Budget (Published Adopted)	74,983,068	83,600,477	92,452,895	102,220,602	105,479,695
Total GU Budget (Banner Adjusted)	75,573,666	84,202,133	91,175,688	105,479,695	
TOTAL BUDGET (Published Adopted)	85,243,667	96,537,761	109,855,259	127,984,822	
TOTAL BUDGET YTD (Banner)	82,575,615	91,446,721	99,493,632		

The budget table shows a growth trend over the past three years. There is an increase in general fund (GU) and restricted funds (RP). Given the unknown uncertainty of the new state budget allocation model, KCCD is using the 2017-18 allocations as the base for the tentative FY2018-19 budget.

The variation in the Total GU Budget (Published Adopted) and Total GU budget (Banner Adjusted) for 2016-17 is due to a carryover error that was corrected after the adopted budget was published and is reflected in the Banner Adjusted total.

The chart above shows the longitudinal trend of the adopted vs. actual reserves with 2017-18 adopted budget reserves. The reserves indicate a continual compliance to board policy. These reserves are well within the prescribed KCCD Board of Trustees minimum of 3% (line on graph) based upon the projected unrestricted expenditures (KCCD Business Services 3A1A6).

Financials per College Division	2013-2014		2014-2015		2015-2016		2016-2017		2017-2018	
	GU	RP	GU	RP	GU	RP	GU	RP	GU	RP
Funding Source										
Pres (ORG 20)	3,866,683	117,252	5,462,828		8,917,351		6,437,189	90,970	4,445,282	410,577
VP AA (ORG 21)	35,857,236	3,844,420	37,613,044	5,392,664	41,304,156	5,023,556	50,423,676	6,698,003	56,542,529	8,571,123
VP SA (ORG 26)	7,555,736	3,852,633	7,843,563	5,448,809	8,159,999	7,899,890	4,688,550	9,706,142	5,264,443	15,692,591
VP FAS (ORG 23)	6,253,181	548,396	6,812,388	660,495	8,137,616	709,502	8,345,900	793,380	8,443,288	966,000

Bakersfield College continues to focus on college priorities by strategically utilizing existing resources and grant dollars. In addition, the college discussions continue to evaluate strategies for long-term fiscal sustainability by augmenting its revenue streams through its auxiliary enterprises.

The fiscal year ends on June 30, 2018. The current fiscal year is a snapshot in time and indicates the projected budget remaining to be expended over the next few months. All other budgets except for the current fiscal year (2017-18) reflect year-to-date (YTD) expenditures.

The full time equivalent student (FTES) graph shows that the College has been in steady growth over the past 5 years. There are expectations that the growth will slow down, but continue to be a steady increase.

	2013-14	2014-15	2015-16	2016-17	2017-18	Tentative 2018-19
FTES	12,762	13,878	14,837	15,800	16,038	16,198
GU Adopted Budget/FTES	\$5,338	\$5,403	\$5,635	\$5,851	\$6,374	\$6,512

As a part of its strategic plan, Bakersfield College anticipates the new programs like the Baccalaureate program to continue to have a positive influence on the FTES for future growth.

A reflection of stewardship is how the College expends and allocates funds to perform services. One such indicator is the assignment of funds per client. As provided in the chart above, the GU budget per full-time equivalent student shows the trend from 2013-14 to 2018-19.

The Finance and Administrative Services (FAS) Division continues to focus on increasing the budget literacy on Bakersfield College's campus. Budget workshops have been held in the past several months. The participants in the workshops have consisted of Budget Managers, Department Heads, Deans, Administrators, Faculty, and Support Staff. As Vice President Chrusciel becomes more familiar with the College and its culture, action plans and strategies will be formulated to promote a Bakersfield College cultural shift of fiscal responsibility and accountability.

Significant planning and pre-construction efforts will commence to explore how Bakersfield College will utilize capital project funding to enhance and revitalize the campuses. The campus infrastructure over the next few decades will undergo some significant changes. If done wisely, the outcome for all at Bakersfield College will be an appropriate use of funds to establish a state-of-the-art campus environment.

This memo is organized in these sections: Section A (Personnel), Section B (Technology), Section C (Facilities), Section D (Professional Development), Section E (Categoricals and Grants), Section F (Distance Learning), with correlating appendices.

Section A: Personnel

The Bakersfield College leadership profile is provided via the organizational chart in **Appendix A1**.

A1: Faculty Positions

The California Code of Regulations (CCR), Title 5 section 51025 requires community colleges districts to increase their base number of full-time faculty over the prior year in proportion to the amount of growth in funded credit FTES. This is known as the "Full-time Faculty Obligation" or FON.

The FON calculation for Fall 2017 is presented below along with a longitudinal presentation (see Table 1) of BC's history regarding to meet the FON.

	District Total	BC	CCC	PC
Fall 2017 Projected FON PLUS 2	435.80			
Base FTF for Fall 2016 FON Compliance (actual reported)	397.00	278.00	58.00	61.00
Current Percentage	100.00%	70.03%	14.61%	15.37%
LESS: 2016 Late Separations/Retirements/Resignations included in 2016 FON	(6.00)	(6.00)	-	-
LESS: New Separations/Retirement/Resignations prior to March 31, 2017	(20.00)	(13.00)	(3.00)	(4.00)
Projected 2017 FTF Base	371.00	259.00	55.00	57.00
Additional Faculty Needed to Meet FON PLUS 2	64.80			
Proposed Faculty Recruitment to Meet FON PLUS 2	64.80	54.80	4.00	6.00
<i>Recruitments above Projected FON PLUS 2</i>			-	
<i>Contingent positions approved against failed recruitments</i>		-		
Projected 2017 Percentage	100.00%	69.81%	14.82%	15.36%
Completed 2016-17 Recruitments	-	-	-	-
Remaining Recruitments to Complete	65.00	55.00	4.00	6.00
Target FTFO (FON PLUS 2)	435.80	313.80	59.00	63.00
Current FTF	371.00	259.00	55.00	57.00
Over/Under FTFO 2017	(64.80)	(54.80)	(4.00)	(6.00)
2017 FON Compliance Requirement	433.80			
Current FTF	371.00			
Over/(Under)	(62.80)			

Table 1 Faculty Obligation Number (FON)

	2011-12	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18
FON KCCD District	366.80	348.80	353.80	370.80	393.10	433.80	437.80
Bakersfield College Actual	254.00	250.00	247.00	261.00	278.00	313.80	
Percentage of actual FON	69.25%	71.67%	69.81%	70.39%	70.72%	72.34%	0.00%

Provided below (Table 2) is the Bakersfield College staffing profile over the past 5 years broken out by faculty/staff categories.

Table 2 Full-Time Equivalent (FTE) BC Profile

	2011-2012	2012-2013	2013-2014	2014-2015	2015-2016	2016-2017
Regular Teaching (11) GU	236.7	244.23	232.2	219.14	224.39	239.24
Regular Teaching (11) RP	0.6	1	1.34	2.16	0	1
Regular Non-Teaching (12) GU	26.27	31.54	26.13	39.16	42	44.7
Regular Non-Teaching (12) RP	4.42	4.4	4.72	4.52	15.11	16.45
Non-Reg. Instr. (13) GU	169.99	102.92	119.77	132.23	0	0
Non-Reg. Instr. (13) RP	15.04	18.16	0.4	3.48	0	0
Classified Non-Instr. (21) GU	139.76	141.41	130.38	134.2	144.87	151.97
Classified Non-Instr. (21) RP	32.76	35.65	36.43	39.41	53.23	78.52
Classified Instructional (22) GU	11.43	9.89	9.43	9.72	8.43	0

Classified Instructional (22) RP	3.18	0	2.23	2.23	1.92	2.86
Non Instructional (23) GU	0.9	0	1.82	2.28	0	0
Non Instructional (23) RP	39.3	0	25.13	24.62	0	0
Instructional Aides (24) GU	0.95	0	0.44	6.44	0	0
Instructional Aides (24) RP	26.8	0	0	3	0	0

The staffing categories for the chart above are as follows:

Regular Teaching (11) includes all regular full-time faculty; Regular Non-Teaching (12) includes all educational administrators, counselors, librarians, non-instructional, and department chairs; Non-Regular Instr. (13) Includes adjuncts, intercession, etc.; Classified (21) includes classified management, confidential, and employees regular salary; Classified Instr. (22) Includes instructional aides; Non-Instructional (23) includes all non-management temps, and non-instructional professionals exempt; Instructional Aides (24).

For specific details regarding positions hired and/or recruited, please refer to Appendices A2 through A4.

There appears to be growth in all faculty/staff categories with a recognizable increase in the restricted program (RP) funding.

2017-18 Faculty Hiring Process

The total number of faculty position for 2017-2018 is 55. This includes replacement positions plus the additional faculty to meet the FON for 2017-2018.

Summary of faculty hiring process for the 2017-2018 tenure track positions:

- Positions voted on by FCDC - 57
- Positions approved - 52

Additional faculty positions to meet the FON include positions in the Strong Workforce Grant. Criteria to prioritize all of the faculty needs include:

- 1) Workforce needs
- 2) Accreditation requirements
- 3) Licensure requirements
- 4) Safety considerations
- 5) Emerging statewide priorities

Section B: Technology
\$2,261,047 Fiscal 2017-18

B1: General Technology

Midway through academic year 2017-18, we have spent about \$314,500 for technology out of the general fund. The bulk of the purchases are for classroom-related technology. Some example are SPSS, Plato, SARS, Maple, Adobe Creative Cloud, DSPS software, Sanaka Study, Solidworks, MATLAB, TI emulator, Photoshop Elements, and Automotive software. Funds have also been spent on network switch maintenance, hub printing, and replacement hub printers. Another \$12,000 has been spent with grant monies purchasing technology equipment for our various grants. Heavier spending is typically done in the second half of the academic year since most of the big projects are done during the summer when impact on instruction is minimal. The big project coming for Summer 2018 is a complete upgrade on the wireless coverage on campus with the goal of 100% coverage and capacity in all of our indoor spaces. The wireless project is being funded with Measure J dollars.

B2: Program Review – Technology

There has not been any money spent on Program Review requests for this academic year. The Program Review technology requests have come in and the technology committee (ISIT) is still in the process of prioritizing those requests. Typically, these requests do not get any funding until late in the academic year and the projects are completed over the summer break. The chart above shows the funding of Program Review technology requests for the last 4 years. The bulk of Program Review request funding comes from grants or categorical programs.

Section C: Facilities

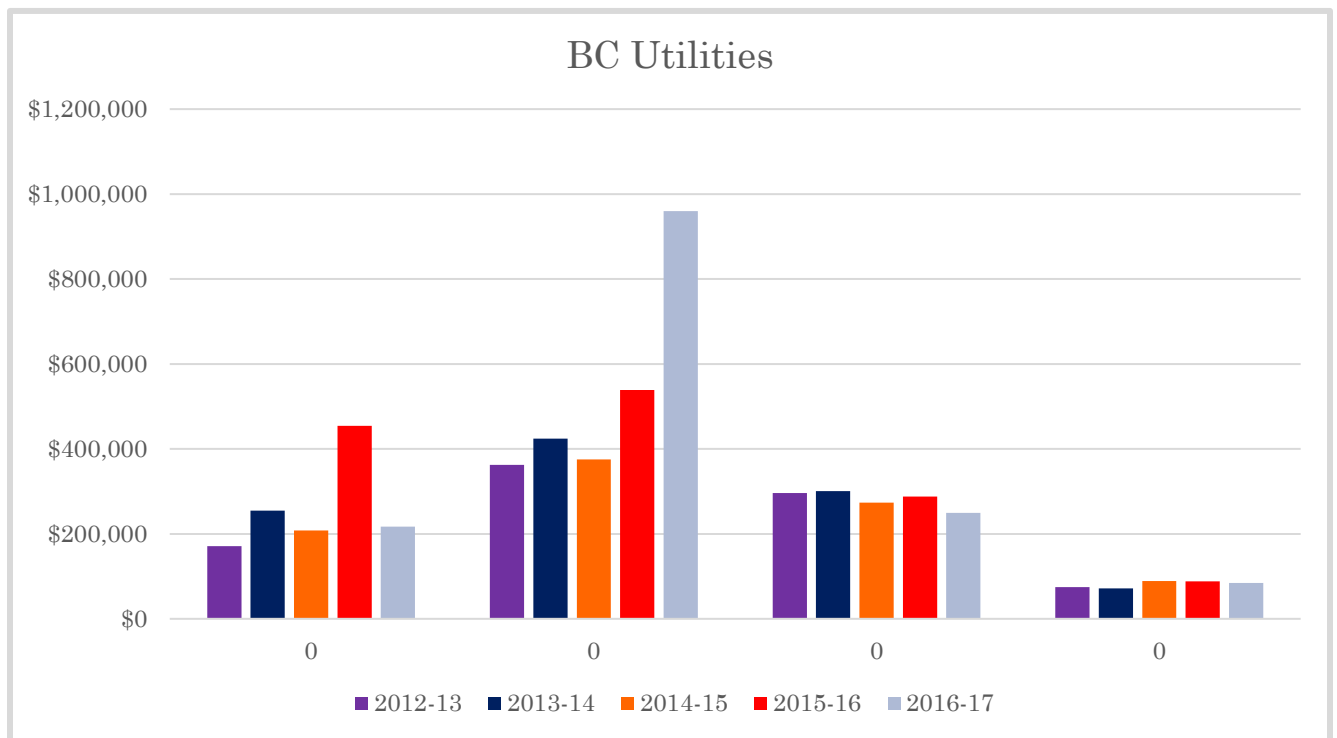

\$1,341,381.37 YTD

C1: General Facilities Update

Bakersfield College has exhausted the funds received by completing the majority of projects identified in the 2002 SRID Capital Outlay Bond program (Measure G). However, there are significant facility needs remaining. The state’s assessment of the aging facilities has identified needs of

Completed Projects	
Repairs to Memorial Stadium Turf	\$250,000
Relocation of Staff and Faculty/Office Expansions	\$103,353
Completion of New M&O Building	\$6,073,453
Interior Building Painting	\$ 154,990
Concrete Repairs and Replacement	\$175,000

\$50 million to modernize the existing facilities built in 1955. The recently completed Bakersfield College Facilities Master Plan identifies significant needs of approximately \$300 million for additional infrastructure, including 200,000 square foot of useable office/classroom/ conference space, and \$80 million for modernizations, expansion, upgrade, replacement of aging infrastructure and continuing energy conservation projects beyond the funding capacity of the 2002 SRID bond program. Bakersfield College’s Facilities Master Plan totals approximately \$330 million. BC’s Facilities Master Plan follows the Educational Plan’s long-term vision. The Facilities Master Plan provides an important blueprint for how student services can be delivered in the long-term to maximize student success, particularly for first-generation college students.

Bakersfield College usage of utilities is on a steady growth with no new significant facilities or additional space for the past 4 years. Increases for electricity are due to the combination of rate increases, some coding and consumption over the year.

C2: Facilities Needs for 2018

Total Facilities, Maintenance, and Operations (FMO) costs have increased over the past three years. The adopted FMO Costs figure indicates that Bakersfield College continually invests in the sustainability of the campus environment and Table 1 below indicates the continual need for more resources.

(Extracted from the Bond Brief)

In 2002, the voters within the District’s Kern, Tulare and San Bernardino County serving areas approved a \$180 million Safety, Repair, and Improvement District Bond in support of Bakersfield College, Cerro Coso Community College, and Porterville College capital outlay facility needs. The property tax rate equated to \$12 per \$100,000 of assessed property valuation. This bond became identified as the 2002 SRID (Measure G). Bakersfield College’s allocation of the received bond funds was approximately \$100 million.

Table 1 Various Facilities Needs

Facility	Sq.Ft.	% of Sq.Ft.	Usage
ABC/Campus Center	41,000	23.2%	Student/Administration
Science & Engineering	104,000	58.9%	Student
Agriculture	22,000	12.4%	Student
Veterans Resource Center	4,600	3.0%	Student
Women’s Field House	5,000	2.5%	Student
Total Proposed New	176,600	100%	

Bakersfield College’s Facilities Master Plan follows the Education Master Plan’s long-term vision. The Facilities Master Plan provides an important blueprint for how student services can be delivered in the long-term to maximize student success, particularly for first-generation college students. Under the plan, student support services and basic skills instruction will eventually be consolidated into the same general area of the main Bakersfield Campus. In 2015-16, the Governor’s budget proposal allowed the CCCC to allocate to KCCD additional monies for scheduled maintenance and instructional equipment, as well as, mandated funds to be used in for facilities. Bakersfield College received approximately \$2.9 million of the allocated funds. These funds were used to address priority items noted in **Appendix C1**. In addition, the table displays other projects that are pending to date.

Based on input from the campus community, the Facilities & Sustainability Committee continues to focus on two areas. The first is the ongoing general campus clean up and maintenance. BC continues to move forward with recovering from previous budget cuts that left the campus in a state of disrepair. Maintenance and Operations continues with the solution by doing projects during summer and holiday breaks. This keeps disruption to the campus down to a minimum

and allows for continuous cleanup and repair of the campus. The campus has seen \$500,000 spent toward maintenance and repair solely for winter projects. Most of the funds came from the Bakersfield College general fund. The College will continue to consider facilities upgrades as a priority item for funding of projects. The focal point of improvements has been focused in Memorial Stadium, along with safety projects, and various classroom improvements. The focus moving forward will continue to be safety and preventive maintenance (**Appendix C1**).

The second area of focus is major construction projects. These projects allow the campus to grow and adapt to meet the needs of students. This year's projects included the new Maintenance & Operations Building, updating our fire alarm system, updating our ADA accessibility to buildings, campus painting, pool boiler replacement, window covering replacements, Prop 39 exterior light replacement, and renovation of stadium football field. (**Appendix C1**).

C3: Program Review – Facilities

The Program Review Annual Updates have been complete and the facilities team has reviewed the requests. The requests fall into three key categories. The first category is items that have already been completed. The second category is requests that are in-progress. The third category is requests that still need funding. Within the third category are sub-categories of Renovation, Replacement and Additions.

Section D: Professional Development

Professional development (PD) at Bakersfield College is highly intertwined with the Academic Technology (AT) department, as much of PD and AT involves both technology and the training of faculty and staff. The coordination of these two areas allows the college to strategically target specific initiatives and coordinate professional development activities with major technological events such as software implementations.

In addition, Professional Development at Bakersfield College contributes heavily to FLEX week, and coordinates with the Professional Development Committee to help with PD initiatives like the Professional Development Institutes, the PDC scholarships, and other work. In the last year, Professional Development has also partnered with Human Resources to sponsor the support staff roundtables, which facilitate the sharing of ideas and tips for support staff from across the campus.

Professional development is an important part of the work of the college. However, this work will not be done in the absence of leadership and coordination that is provided by the leadership in this area. It is important that the college continue to invest in this area as a long-term strategy for excellence in both instructional and non-instructional areas.

Section E: Categoricals and Grants

E1: The Board Financial Assistance Program (BFAP)

BOGW: The College has awarded BOGW to a higher number of students, 21,374, and increased its total BOGW award amount by almost a million dollars to \$13,391,060.

Disbursements: The College has disbursed Pell Grant to a higher number of students, 9,620, and increased its total disbursement amount to \$28,418,200.

Cohort Default Rate: After the College decreased its Cohort Default Rate from 30% to 21.3%, BC has continued to move in the right direction. Our most recent milestone, the 2014 3-Year Cohort Default Rate, stands at 20.4%.

CampusLogic: When Campus Logic software comes to campus at the end of November 2017, its text message capabilities and mobile-friendly, media-rich communications will increase a student’s accessibility to important information, reduce student debt, and cut the cost of financial aid administration with its efficient, paperless approach.

CampusLogic is designed to decrease financial barriers and increase financial aid processes. CampusLogic will bring the entire financial aid office into the palm of a student’s hand.

E2: Extended Opportunity Programs and Services (EOP&S), Cooperative Agencies and Resources for Education (CARE) and California Work Opportunity and Responsibility to Children (CalWORKs)

Budget: As seen in the chart above, EOP&S has experienced a growth in funding over the past years that has continued into the current 2016-2017 fiscal year.

E3: CARE

Budget: As seen in the chart above, the Cooperative Agencies and Resources for Education (CARE) has experienced a growth in funding over the 2013-2014 fiscal year that has continued into the current 2016-2017 fiscal year.

CARE Grants: The CARE program has continued to award CARE grants for those students that have financial unmet need to assist with additional childcare, transportation or educational expenses. Students do have to be financial aid eligible to receive the CARE grant. For 2014-15, the slight decrease was a result of many students not qualifying for financial aid. In addition, with the full-time unit requirement, less students were eligible for the CARE program. The estimated amount to be awarded in 2016-2017 has increased from previous years.

Food vouchers: The CARE program increased the amount of food vouchers that was issued to students to \$384 per semester. The increase was based on what other colleges within the region are offering their CARE students.

CARE Brown Bag Series: The CARE program offered to series of workshops for CARE students, to focus on important topics. During the fall semester, the CARE program focused on Health and Wellness, offering workshops such as Circuit Training, Self Defense, Yoga and Nutrition. During the spring semester, the program focused on financial literacy, offering workshops such as Filing Taxes, Budgeting and Credit Score.

E4: California Work Opportunity and Responsibility to Children (CalWORKs)

Budget: As seen in the chart above, California Work Opportunity and Responsibility to Children (CalWORKs) continues to experience decrease in funding.

E5: Disabled Students Programs and Services (DSPS)

Budget: As seen in the chart, the Disabled Students Programs and Services office experienced a slight decrease in funding during 2016-17. This was due to a drop in students because of a loss of a counselor. We were able to recover and increase our student count by the end of 2016-17, but as described below, we will not know the full impact of this student increase on our budget for a couple more years.

There are evolving changes in the DSPS funding structure that impact our budget. First, is the switch to ‘prior-prior.’ This means our base budget for 2017-18 is established by our End of the Year report and student count for 2015-16. We have yet to be

awarded our allocations for 2017-18 for Access to Print and Deaf/Hard of Hearing. The latter are generally announced in late November, early December. One large repercussion of the switch to prior-prior is that, for instance, if we have an increase in our deaf student population this year, we need to pay for the interpreter services this year. However, we will not be paid for serving these students for two more years.

Other changes to the regulations that will impact the budget in 2018-19 are changes to how we categorize students—which has completely redistributed our weighted student count—and changes to the amount we get paid per student weighted by type of disability. Initial modeling from the State Chancellor’s Office indicates that some colleges will fare better with the new weights, while others will do worse. There is no certainty how Bakersfield College DSPS budget will do once these new regulations are implemented.

Regarding staffing, DSPS is almost completely staffed. One area still in need of additional staff is sign language interpreting services. While we have 4 staff interpreters at 30-35 hours per week, and one at 19 hours per week, this is insufficient to meet our current needs. Additionally, the 19-hour interpreter has informed us she is leaving after the fall 2017 semester.

To supplement our unmet interpreter needs in order to meet our legal obligations, we are forced to utilize a community-based interpreter agency at a much higher rate than what we pay staff interpreters. Moreover, we have one student who is deaf who is playing football for BC this fall semester. This requires approximately 30 hours per week of agency-based interpreter services, on top of what we have been paying the agency to cover excess classes. In 2016-17, we paid approximately \$100,000 to the interpreter agency. For 2017-18, we anticipate the expenses will be approximately \$35,000 to \$50,000 higher than 2016-17 expenses due to staff outages and football-related expenses. DSPS will not be able to cover all these interpreter expenses within our current budget. The only way to reduce sign language expenses is to add to our number of

staff interpreters. DSPS is requesting to hire a level 2 interpreter, 35 hours per week, 10 month contract. We would also like to increase our level 1 interpreter, who is 35 hours per week, from an 8 month contract to a 10 month contract.

As a closing note, DSPS is extremely happy to report being relocated into an area where we pulled together our front desk and director, counseling, alternative media, and WorkAbility III job placement services into one centralized location. This has had many positive impacts on our internal communications and processes, not to mention providing better services for our students with disabilities.

E6: Student Support Services and Programs (SSSP) and Student Equity (SE)

2017-18 Professional Development Expenditures

Noted below; numbers do not reflect direct faculty special compensation for engagement in professional development activities on campus, cost of food and materials when hosting events on campus, etc.

SSSP: \$40,062.59

Equity: \$70,309.33

College Futures CA Pathways: \$24,929.35

College Futures Leadership Grant: \$20,247.59

College Promise Grant: \$284.55

2017-18 Student Success Categoricals and Grants:

These numbers have not changed with the exception of an additional grant for the College Promise. The categorical period for SSSP and Equity is over a two-year period.

Fund	Allocation 2015-16	Allocation 2016-18	Allocation 2017-19
SSSP	\$2,079,186	\$3,473,756	\$4,231,081
Equity	\$1,005,862	\$2,088,925	\$2,244,245
College Promise	N/A	N/A	\$750,000
Total	\$3,085,048	\$4,478,857	\$6,475,326

Matriculation Step	Student Contacts	Direct Expenses	Total Dollars/Student
Initial Orientation	8,461	\$250,924	\$29.66
Initial Assessment	3,597	\$414,887	\$115.34
Counseling/Advising	32,722 (13,203 Ed Plans)	\$1,720,103	\$52.57
Follow-Up/Probation	1,350	\$205,541	\$152.25

E7: Office of Student Life

BC Student Assistance Program (The Renegade Pantry):

- Daily Bread: In partnership with Panera Bread, for fiscal year 2017, the service has been used 8,494 times by students
- Monthly Grocery Distribution: From July 2016 to June 2017, this service was used 929 times
- Emergency Food Distributions: Students requesting emergency food assistance totaled 103 (83 unique) from July 2016-June 2017
- Fresh Fruits and Vegetables: Since July 2016 to June 2017, this service was used 779 times, serving 536 unique individual students.
- Hygiene Kits: Created hygiene kits for students who need assistance in maintaining proper hygiene. Since July 2016 to June 2017, 273 times students have used this service.
- Renegade Closet: Provides students with children to adult clothing that they may be able to keep in order to proceed in their academic success. For fiscal year 2017, 48 students have used this service.

Additionally, in an effort to increase student success, 34 students who accessed the monthly pantry services and fell below a 2.0 GPA, were referred to an Academic Probation Counselor to evaluate their educational plan and ensure their academic success was met.

Student Life Visits:

The Office of Student Life was visits approximately 15,987 from July 2016 to June 2017. Visits include everything from questions, meetings, requests of information or resources, student organizations services, BCSGA matters, but not including the Pantry services, events, or meetings.

Student Conduct:

<u>Case Type</u>	<u>Number of Individuals (Cases)</u>

Student Complaints	36
Medical Aid	48
Pantry Probation Alert	34
Clearance	36
Student Health and Wellness Cases	75
TOTALS	795

*E8: Vocational Technical Education Act (VTEA)
Fiscal 2017-18 \$620,309.00*

VTEA funding has remained relatively stable over the past 5 years, but as noted in the chart below, revenue is dependent upon the financial stability of the state as well as College FTES generation.

The majority of funding supports personnel, educational advisors and job development specialists to support work needed for “Special Populations” CTE students, as well as 50% of a Program Managers salary to administer the Program. In addition, funding is used to support professional development activities that would benefit all CTE programs as well as software licensing fees for EMSI (Economic Modeling Specialists, Inc.) which is an internet based data system that provides labor market analytics, program alignments and Career Coach. The remaining funding supports program specific professional development activities for faculty so that they may remain current in their discipline and equipment purchases so faculty may teach

using current industry specific equipment. As demonstrated in the chart below, the amount of funding to support instructional equipment has been minimal and does not adequately address the high cost of CTE programs.

E9: Strong Workforce Funding

During the 16/17 and 17/18 fiscal cycles, the College received significant funds to support “More and Better CTE”. Year 1 allocation was based on the following formula: 1/3 unemployment, 1/3 job openings and 1/3 CTE FTES. During Year 2 colleges received 83% of the available funding, the allocation is based on the following formula: 1/3 unemployment, 1/3 CTE FTES and 1/6 job openings. The remaining 1/6 allocation is considered “17% incentive funding” and will be released to college’s in January 2018 and will be based on each college’s FTES performance with additional points being given to “special population” students.

Strong Workforce Local Share:

Year 1 = \$1,366,000.00 (7/1/2016 – 12/31/2018)

Year 2 = \$1,502,000.00 (7/1/2017 – 12/31/19)

Year 1 funding supports more and better CTE through the enhancement of existing programs – Auto, Manufacturing, Commercial Music and Culinary; expansion of programs to Delano – Electronics; and, development of new Programs HVAC, at Delano, and Associate of Science of Industrial Automation that will be a feeder into the Baccalaureate program. Funding will

purchase equipment, pay for professional development and stipends for curriculum development. Year 1 funding allocation is through 7/1/16 – 12/31/18. Year 2 plans are being developed during the fall 2017 semester.

Strong Workforce Local Funds Year 1 Expenditures	
Acad Emp - Non-Inst Non Cont	\$1,200.00
Clss Non-Instr Emp Reg Salary Sched	\$13,170.39
Benefits	\$7,445.54
Instructional Supplies	\$5,524.19
Non-instructional Supplies	\$3,196.75
Employee Travel	\$6,412.47
Building Maintenance	\$22,941.00
Postage/Express Overnight Svcs	\$143,609.00
Site Improvement	\$223,112.45
Buildings Construction	\$2,500.00
Additions to Buildings	\$2,500.00
Computer/Technology Equipment	\$7,637.71
Equipment	\$268,570.21
Total	\$707,818.71

Strong Workforce Regional Share:

Year 1 = \$988,872.00 (7/1/2016 – 12/31/2017)

Year 2 = \$1,062,974.00 (7/1/2016 – 12/31/2018)

Funding supports more and better CTE utilizing a regional approach through the enhancement of existing programs – Health Sciences, Dual Enrollment, Industrial Automation and Workplace Internships/Job Development. Funding will support staffing, purchase equipment, pay for professional development and stipends for materials development. Year 2 plans are being developed during the Fall 2017 semester.

Strong Workforce Regional Funds Year 1 Expenditures	
Instructional Stipends/Salaries	\$15,055.86
Classified Staff	\$18,014.27
Benefits	\$13,372.30
Instructional Supplies	\$139.20
Professional Development	\$901.45
Food/Meetings	\$555.50
Short Term Rental-Vet & Equip	\$1,225.57
Building Maintenance	\$36,650.57
Printing/Duplicating	\$12,073.50
Building Construction	\$16,126.00
Furniture	\$33,197.10
Equipment	\$484,907.61
Total	\$632,218.93

*E10: Instructional Block Grant
Fiscal 2017-18 \$620,309.00*

The Instructional Block grant was braided with VTEA and Strong Workforce so that the majority of instructional equipment requests could be addressed. Because of this integrated spending process for instructional equipment and professional development, the College was able to grant the majority of the 16/17 equipment requests for the instructional areas.

*STEM HSI Title III Grant
No-Cost Extension Ending September 30, 2017
Remaining Balance = \$690,686; Spent = \$426,630*

In 2016-17, the College was granted a no-cost extension to complete initiatives for the STEM Grant. Funding this year primarily supported our extensive supplemental instruction and STEM Mentoring program as we transitioned staff and students into the newly opened Aera STEM Success Center. This centralized location for counseling and study, as well as the MESA program (Mathematics, Engineering, and Science Achievement), will support the STEM community established by the initiatives and goals of this grant.

*California Career Pathways Trust II Grant
Budgeted = \$1,066,289; Spent = \$576,922*

Funding for the second year of this grant supported the salaries of the program manager monitoring the grant, educational advisor dedicated to the pathways identified in the grant, job development specialist working with industry partners, computer technician responsible for maintaining specialized computer interfaces for equipment utilized in pathway disciplines, clerical support, and faculty stipends who worked with high school partners in developing dual enrollment and articulation in their programs. In addition, equipment and supplies were purchased to support the growth and development of program pathways.

*Baccalaureate Degree Start Up Funds
Remaining Balance = \$188,012; Spent = \$170,212*

In 2015, Bakersfield College was provided \$350,000 in start-up funds to establish the Bachelor of Science Degree in Industrial Automation. This year, most of the remaining funds were spent on equipment and supply purchases to support the industrial robotics needs of the upper division technical courses. Faculty and the (Baccalaureate Degree Program) BDP counselor participated fully in the statewide professional development conferences for the program.

*California Energy Commission Alternative Technology and Renewable Energy (ATRE) Grant
Funded and spent = \$80,355*

Funding from this grant was used to purchase an electrical vehicle and specialized scan tools in order to integrate alternative fuel technology education into the existing curriculum. This allowed the Automotive program to align with industry standards and expand capacity for new technology curriculum.

*CSUB Title V Cooperative Grant
Budgeted = \$153,978 (includes carryover from year 1)
Spent = \$55,680*

The cooperative agreement with CSUB was established during the second year of the grant supporting the salary (partial) of the newly hired Engineering Program Manager in addition to funding faculty stipends and some supplies.

Section F: Distance Learning

Bakersfield College has seen significant movement in the areas of Academic Technology and Distance Education in the last year. The development of an Academic Technology Department has provided the necessary platform for sustainable growth and the development and support of a wide range of teaching practices.

The Academic Technology Department consists of a Dean and Executive Secretary, a faculty Instructional Technologist, and two Educational Media Specialist positions. Future growth goals include additional classified and faculty positions.

Online Initiatives:

The Academic Technology Department is currently targeting several initiatives related to Distance Education and Online Learning:

Expansion of Online Offerings

Bakersfield College is investing online learning opportunities for our students. The practical result of this is an increase in the number of sections offered online. The strategy for growth is guided by the following three constructs:

- 1. Growth in the depth of offerings:** There are several course, already offered online, where the number of sections is not sufficient to meet demand. The college, with the guidance of the instructional deans, is working to determine student need related to specific courses and schedule a sufficient number of sections online to meet student need.
- 2. Growth in the breadth of offerings:** The College is reviewing courses that are not currently offered online, and determining the value of offering those courses online. This is driven by demand for the course, but also factors like time and classroom limitations. The Curriculum Committee recently approved 84 courses for online instruction, many of which will be scheduled for online instruction in 2018.
- 3. Strategic Growth:** Specific courses are being added to our online offerings, which are designed to target strategic areas, including the completion of degrees or other programs online, or the alleviation of bottlenecks to student completion.

Working Toward Online Degrees

The college is making steady progress toward online degrees. This fall, 5 programs were targeted on the basis of the readiness of their curriculum for online offerings, and the progress toward the end goal of having all courses for the program online. Sample student education plans for each of those online programs were developed, and the college is beginning the work of coordinating offerings to ensure that program requirements can be completed in the space of two years.

The college is also working toward the offering of complete general education patterns online. Currently, all but two of these requirements is met online. The college will continue to work with faculty to explore the possibility of offering these remaining courses in an online format. Our future participation in the Online Education Initiative may also open avenues for students to

complete courses that Bakersfield College is not yet able to offer, allowing BC students to complete a higher number of our programs fully online.

Academic Technology Initiatives:**Faculty Development Lab and Maker Space**

Library 160 has historically served as a space for the development and training for faculty, as well as a technology resource center for faculty who needed access to technology for the development of courses and course materials. In the summer of 2017, L160 was redesigned to enhance its use for this purpose. New, movable tables and chairs were purchased, and a cutting edge lecture capture system was installed. In addition, a faculty maker space was developed to allow faculty easy, open access to devices and tools that facilitate the creation of physical objects and technology that will aid in classroom instruction. Currently, the maker space includes a 3D printer. Over time, the goal is to enhance this space with other tools and machines.

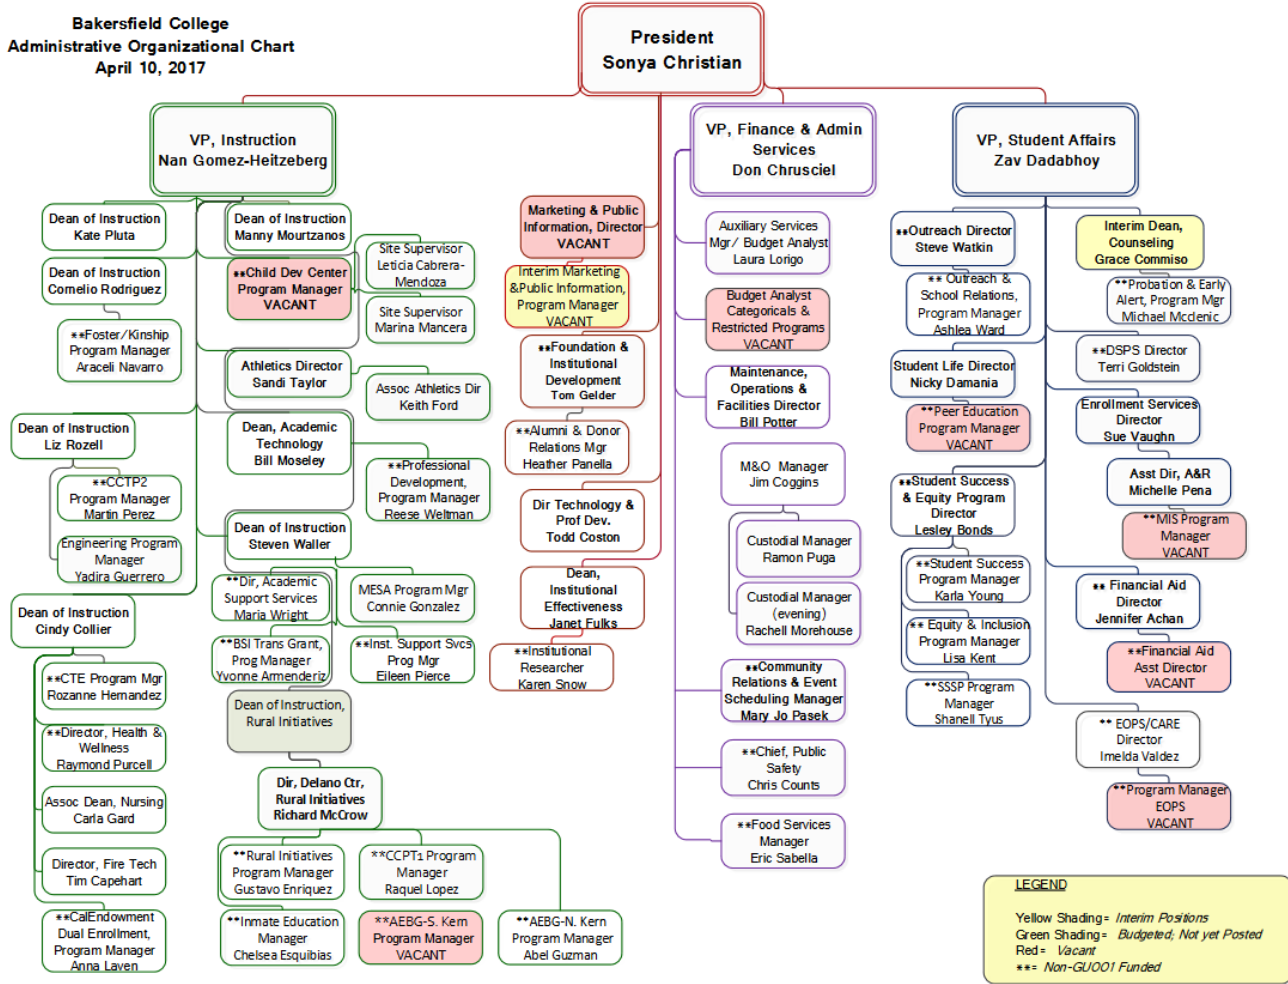

Academic Technology Resource Site

The AT Department is supporting faculty development through the development of an extensive web site that includes tips, cheat sheets, and archived, captioned video of our professional development workshops. Through the investment of the AT Department, this site continues to grow and develop, further enhancing its usefulness to faculty and staff.

IEPI and Canvas / eLumen Integration

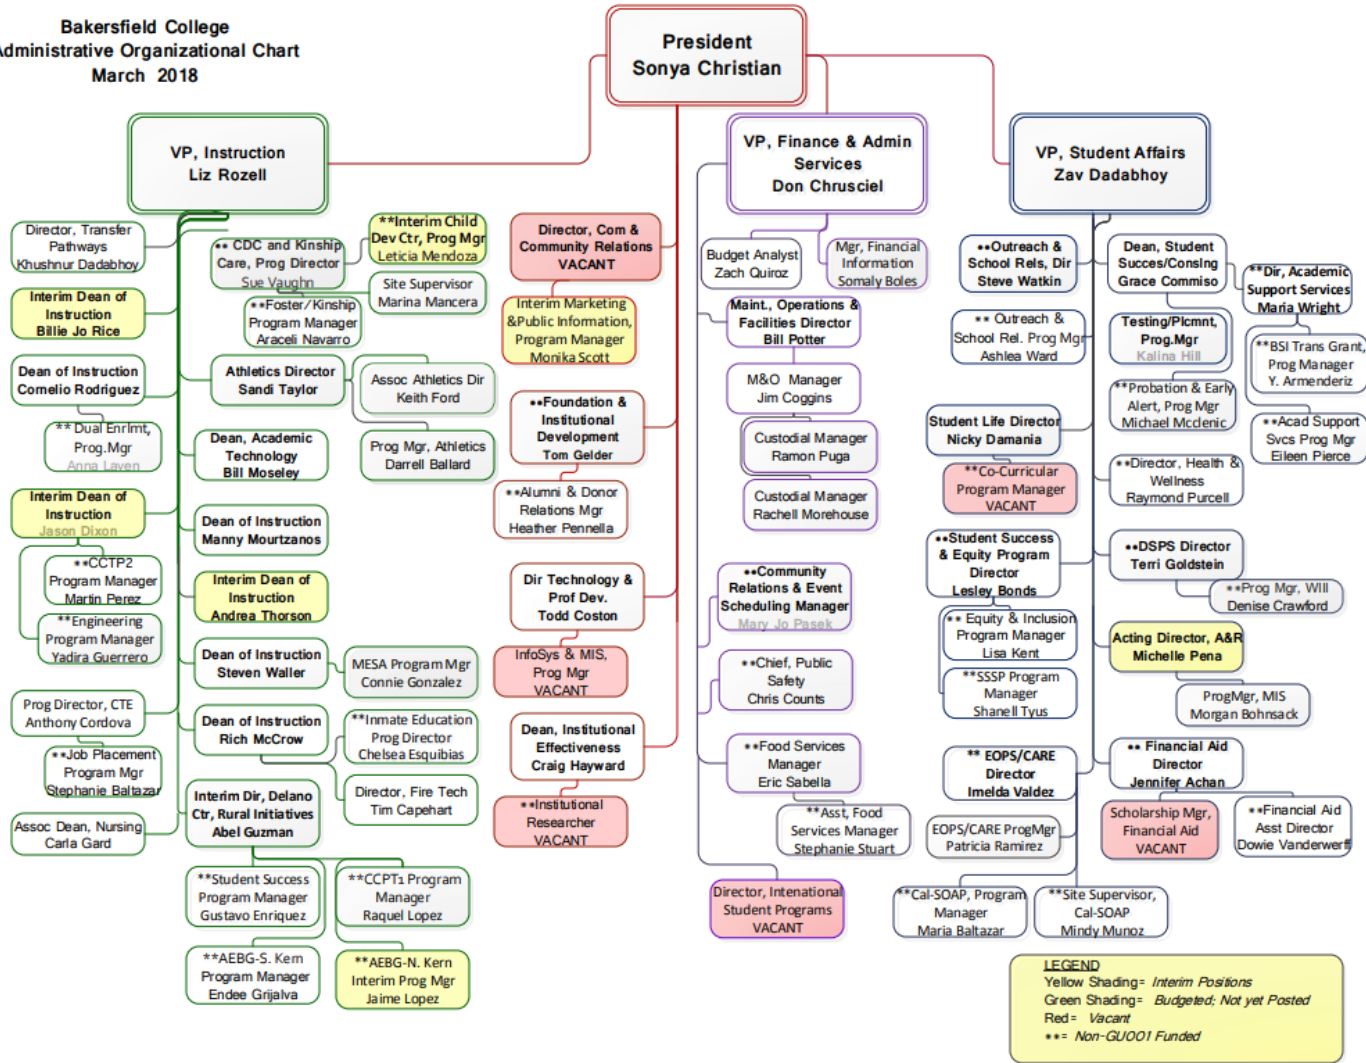

The AT Department is taking on a leadership role in the development and implementation of the eLumen platform, including the effort to connect eLumen to our Canvas platform to facilitate the gathering of assessment data using the assessment tools in the Canvas platform. This project will develop over the course of 2018, with the goal of full implementation by spring of 2019.
