These topics will be applied to problems in business, economics and the social sciences.<br><br>C-ID: MATH 130   | Revision     | 3     |       | T, GE, DE                          | Hybrid, Online, Interactive                  | Approved     | Approved    | BC GE B2<br>CSU GE B4<br>IGETC 2          | Summer 2023    |
| 12/1/2022    | D, GE       | NURSB46  | Nursing Care of the Medical Surgical Patient 3          | This level 3 course focuses on the application of previously learned knowledge as well as the development of more in-depth knowledge for adult patients across the lifespan who have more diverse and complex disease states. The nursing process is the framework used in this course to present topics, such as leadership, critical thinking, pharmacology and safety. Correlated clinical experiences are provided with adult patients who have increasingly complex outcomes. The roles of Provider of Care, Manager of Care, and Member of the Profession are integrated and analyzed throughout the didactic and clinical experiences. | Revision     | 5     |       | T, DE                              | Hybrid, Interactive                          | Approved     |             | BC GE D3<br>CSU GE D3                     | Summer 2023    |
| 12/1/2022    | GE          | CHDV821  | Child Growth and Development: Birth Through Adolescence | This introductory course examines the major physical, psychosocial, and cognitive/language developmental milestones for children, both typical and atypical, from conception through adolescence. There will be an emphasis on interactions between maturational processes and environmental factors. While studying developmental theory and investigative research methodologies, students will observe children, evaluate individual differences and analyze characteristics of development at various stages.
