

Assessment Report to Academic Senate

March 31, 2023 | Faith Bradham, Faculty Co-Chair

- Assessment last met on March 31 and will meet next on April 21.
- As of 3/31, [68% of departmental assessment plans have been updated](#) through 2023-2024.
 - It is imperative that all departmental assessment plans are updated by the end of the Spring 2023 semester so that all departments know which SLOs they will assess for their courses in 2023-2024 at the start of the Fall 2023 semester.
 - Your Assessment rep is working with your chair to make sure that all departments in your area have updated plans.
- Assessment received 19 artifacts toward its assessment of ILO 3 this semester. These artifacts have been assigned to teams of Assessment committee members for review. Once the artifacts are reviewed, Co-Chair Faith will compile the results with a goal toward presenting the committee with a preliminary look at the results of our ILO 3 assessment by the last meeting of the Spring 2023 semester.
 - Full results will be presented in a presentation during Fall 2023 flex week.
- Please keep an eye out for an April workshop for faculty on how to create departmental dialogue around assessment.
