10/19/2023	B	MEDSB37	Medical Terminology	This course is an introduction to the study of medical terminology and will help the student to learn the anatomic and clinical terms pertaining to each body system. This course is for students interested in building a medical vocabulary. Three units are required for radiologic technology, medical billing, and transcribers.  <b>Note: Not open to students that have successfully completed MEDS</b>	Revision	3		T, DE	hybrid, online, interactive	Approved	Approved			Summer 2024	MEDSB37	Medical Terminology
10/19/2023	A	NURSB94NC	Review of Maternal Newborn Nursing	This Level 3 course provides a comprehensive review of maternal and newborn nursing. Parent/newborn issues are viewed from a nursing process approach for the antepartum, intrapartum, postpartum, and neonatal clients. Coordinated exercises emphasize the development of clinical judgment. The process of recognizing and analyzing cues, prioritization of care, and evaluation of outcomes is applied to a variety of care management scenarios. This course is designed as a review course for learners who have previously successfully completed the full course including the clinical component or transfer students who have successfully completed a vocational nursing program and obtained licensure from their state.	Revision		18 hrs	DE	Online					Summer 2024	NURSB94NC	Review of Maternal Newborn Nursing
10/19/2023	A	NURSB95NC	Review of Child and Adolescent Nursing	This level 3 course provides a comprehensive review of child and adolescent nursing. Using growth and development concepts as a framework for presenting problems and special concerns of the pediatric patient. Communication, anticipatory guidance, response to hospitalization, legal and ethical issues, and health care of pediatric clients are discussed. Coordinated exercises emphasize the development of clinical judgment. The process of recognizing and analyzing cues, prioritization of care, and evaluation of outcomes is applied to a variety of care management scenarios. This course is designed as a review course for learners who have previously successfully completed the full course including the clinical component or transfer students who have successfully completed a vocational nursing program and obtained licensure from their state.	Revision		18 hrs	DE	Online					Summer 2024	NURSB95NC	Review of Child and Adolescent Nursing
10/19/2023	A	NURSB96NC	Review of Mental Health Nursing	This Level 2 course provides a comprehensive review of Mental Health Nursing. Emphasis is on therapeutic interactions and communications, bio-psychosocial rehabilitation, and therapeutic use of self. Coordinated exercises emphasize the development of clinical judgment. The process of recognizing and analyzing cues, prioritization of care, and evaluation of outcomes is applied to a variety of care management scenarios. This course is designed as a review course for learners who have previously successfully completed the full course including the clinical component.	Revision		18 hrs	DE	Online					Summer 2024	NURSB96NC	Review of Mental Health Nursing
