2/13/2025		PHEDB34WT	Intercollegiate Weight Training	Intercollegiate athletics course emphasizing weight training. Enrollment is limited to athletic team candidates and includes, sport specific aerobic and anaerobic weight training, appropriate technique, strength conditioning, speed development and explosive exercises. Students who repeat this course will improve strength, flexibility, and fitness through detailed instruction and practice. Note: UC Campuses give a maximum of four semester units of credit for Physical Education activity units.	Deletion	.5-1										Summer 2026
2/13/2025		CULNBS1	Culinary Production and Operations III	In this course, students will apply their acquired knowledge, skills, work ethics, and technology to gain a comprehensive understanding of production, service, and management functions in both on-campus and off-campus food service operations. Topics covered will lead to a deeper exploration of practical applications in culinary settings, emphasizing the importance of professional uniforms and conduct. Through hands-on experiences, students will engage in various learning activities, including practical cooking sessions, collaborative projects, and real-world simulations, allowing them to enhance their culinary expertise and prepare for careers in the food service industry. Note: Field trips may be required. Note: Not open to students who have completed FDSV 855E.	New	3				Hybrid, Online, Interactive						Summer 2026
2/13/2025		BSADB29	Entrepreneurial Business Plan	This course teaches students the essential components and skills to create a comprehensive and viable business plan. Students will learn to analyze market opportunities, develop strategies for success, and articulate their vision in a way that is clear, persuasive, and actionable. Emphasizing real-world application, the course covers key elements such as business objectives, market analysis, marketing strategies, operational plans, financial projections, and funding considerations. By the end of the course, students will complete a detailed business plan suitable for presentation to stakeholders, including investors, partners, or funding institutions. This course is ideal for aspiring entrepreneurs, small business owners, or anyone interested in turning an idea into a structured and sustainable business model.	Revision	3		T, DE		Hybrid, Online, Interactive	Approved					Summer 2026
2/13/2025		BSADB33A	Introduction to Accounting 1	An introduction to modern financial accounting theory and practice. Analysis of financial transactions using the rules of double-entry bookkeeping. Accounting cycle including adjusting entries, the expanded worksheet, the use of special journals, bank reconciliations and the preparation of financial statements.	Revision	3		DE		Hybrid, Online, Interactive						Summer 2026
2/13/2025		EMTCB10	Paramedic 1	This course introduces the student to the roles and responsibilities of the Paramedic within the Emergency Medical System. The student will be expected to apply basic concepts of anatomy, pathophysiology, pharmacology, patient assessment, the health and safety of the paramedic, documentation, and medical-legal issues to be able to formulate a 'field impression' of patient status.	Revision	6		T, DE		Hybrid, Online	Approved					Summer 2026
2/13/2025		FIREB65E	Techniques of Evaluation	This course provides the skills and knowledge needed for the intermediate level professional instructor to perform his or her duties safely, effectively, and competently. The curriculum is based on the 2012 edition of NFPA 1041 Standard for Fire Service Instructor Professional Qualifications and the 2012 edition of NFPA 1403 Standard on Live Fire Training Evolutions. At the end of this course, candidates for Instructor I certification will be able to develop lesson plans and evaluation instruments, teach and deliver instruction, and evaluate and coach other instructors. The Instructor II will also be able to analyze resources and formulate a program budget.	Revision	2				Hybrid, Online, Interactive						Summer 2026
2/13/2025		FIREB67A	Fire Control 1: Basic Fire Chemistry	In this course, students will gain a foundational understanding of fire chemistry and behavior, specifically tailored for beginning or volunteer firefighters. Topics will be covered to provide students with knowledge of the different classes of fire, the fundamentals of heat transfer, and how various materials react to fire. Students will also learn about the products of combustion, hazardous and explosive materials, and the types of extinguishing agents used in fire suppression. Additionally, the course will cover critical skills such as conducting size-ups during an emergency and applying exposure protection to minimize damage. This comprehensive overview equips students with the essential knowledge to respond effectively in fire situations.	Revision	1				Hybrid, Online, Interactive						Summer 2026
2/13/2025		INDR B20A	Intermediate Computer-Aided Drafting and Design	This is an intermediate level Computer-Aided Drafting and Design (CAD) course that is structured to impart the foundational knowledge and essential technical skills required to succeed as an entry-level CAD technician. Areas of special emphasis include industry standards, drawing conventions, and operational practices typical to the industrial design, architectural drafting, and engineering support fields.	Revision	3		T, DE		Hybrid, Online, Interactive	Approved	Approved				Summer 2026
2/13/2025		INDR852	Civil Drafting and Geographic Information Systems	This advanced Computer-Aided Drafting course is structured to impart the knowledge and skills necessary to create technical drawings and documentation typical to the cadastral, civil engineering, mapping, and surveying fields. Students will also use Geographic Information Systems (GIS) software to perform model-based mapping and database queries.	Revision	3		DE		Hybrid, Online, Interactive						Summer 2026
2/13/2025		OFFTB60NC	Legal and Financial Implications with Employees	This workshop is designed to give a basic understanding to students about the legal and financial implications in maintaining employees. The workshop emphasizes a focus on the small business workforce.	Revision	0	9 hrs	DE		Hybrid, Online, Interactive						Summer 2026
2/13/2025		OFFTB69NC	Business Plan III: The Marketing Plan	This workshop is designed to give students the knowledge on how to create the marketing plan section of a business plan. The workshop emphasizes the goal of a viable business plan.	Revision	0	9 hrs	DE		Hybrid, Online, Interactive						Summer 2026
2/13/2025		OFFTB75NC	Basic Employability Skills	This course prepares the student to enter the current job market by exploring the information and skills needed to communicate effectively and clearly, exploring problem-solving and effective interaction with others, and developing a resume and solid interview techniques.	Revision	0	9 hrs	DE		Hybrid, Online, Interactive						Summer 2026
2/13/2025		OFFTB76NC	Business Branding	This workshop is designed to give students the basic marketing skills required to create a strong business brand. The workshop focuses on creating a brand for small upcoming businesses.	Revision	0	9 hrs	DE		Hybrid, Online, Interactive						Summer 2026
2/13/2025		OFFTB79NC	Financial Skills for Smart Living	This course teaches students how to make wise financial decisions to promote financial well-being over their lifetime. This course will introduce students to basic banking concepts, such as types of financial institutions—banks, credit unions, and savings institutions; the different accounts they can open to help save money; use money to pay for day-to-day expenses, or even save for long-term goals. Finally, this topic will teach participants how to use and manage their accounts once they're opened and also the finer details of using an ATM with their new debit or ATM card.	Revision	0	9 hrs	DE		Hybrid, Online, Interactive						Summer 2026
2/13/2025		WOODB50	Advanced Woodworking	This class is an advanced class teaching woodworking processes related to industry. Students will learn concepts of furniture and cabinet design, advanced use and care of portable and stationary power machines, advanced joinery, and advanced wood finishing.	revision	3				Hybrid						Summer 2026

12/5/2024	G	AGRIB7	Introduction to Agriculture Education	This course is an overview of agricultural education in California, including the principal components of agricultural education, developing academic and career plans, and observation in a secondary agricultural education classroom. In addition to class time, the course requires a minimum of 45 hours of structured fieldwork in K-12 classrooms that represent California's diverse student population and includes cooperation with at least one carefully selected and campus-approved certificated classroom teacher. Students need to do their observation in a classroom that is in line with their degree plans. A single-subject agriculture credential requires that candidates observe in the subject area at high school or junior high.	New	3				Hybrid	Add	Add				Summer 2025
12/5/2024	A	ELETB4	Computer Integrated Manufacturing	In this course, students will be introduced to industrial automation technologies and the procedures utilized when troubleshooting automated control systems. Students will utilize programmable logic controllers (PLCs), machine control, industrial robots, and material handling systems to learn about modern control systems utilizing Industry 4.0 Standards. Note: Not open to students who have successfully completed MFET B4 or MFET B50. An intermediate class teaching woodworking processes related to industry. Course topics include furniture and cabinet design, intermediate use and care of portable and stationary power machines, intermediate joinery, and intermediate wood finishing. 12/5/2024	G	WOODB5	Intermediate Cabinetmaking	An intermediate class teaching woodworking processes related to industry. Course topics include furniture and cabinet design, intermediate use and care of portable and stationary power machines, intermediate joinery, and intermediate wood finishing.	Revision	2		T, DE		Hybrid	Approved					Summer 2025
11/21/2024	E, GE	KINSB49A	Mexican Folk Dance Appreciation	In this course, students will be learning about the History and origin of Mexican dance, from the pre-Columbian era through the arrival of the Spaniards. Students will focus on the critical analysis of how colonization played an important role on the cultural structures and its impacts. The topics covered will include analysis of the form, function, and symbolism of the music, musical instruments, movements, and choreography. Additional focus will include the examination of the role of gender in this art form.	New	3				Hybrid, Online, Interactive	Add	Add	add: BC GE 3 CalGETC 3A			Summer 2025
11/21/2024	A	STEMBSONC	Step Up to Science Technology Engineering and Mathematics	This course prepares students for future courses on their path toward completing a Science, Technology Engineering and Mathematics degree. This course will increase students' quantitative reasoning skills and introduce students to metacognitive learning strategies. Students will also explore potential barriers to academic success, discover campus resources to support their education, and create a transfer plan to a 4-year institution.	Revision	0	18	DE		Hybrid						Summer 2025
11/7/2024	F, GE	SOCIB36	Sociology of the Latina/o	A comprehensive examination of Latina and Latino American experiences through the lens of interdisciplinary theories, sociological research, and community-based knowledge. Students will examine the historical events, cultural contributions, and social struggles of these communities, with a focus on issues of agency and self-determination. Emphasis is placed on the intersections of race and racism with other social identities within Latina and Latino American communities. Topics include race, racism, labor, immigration, crime, education, family, gender, sexuality, politics, health, spirituality, media, and art. Note: Not open to students who have successfully completed ETHN B365.
