# BCSGA Student Government Report

**Curriculum Committee | November 19, 2026**

The BCSGA has made progress in addressing several challenges we faced this semester. We recently elected a new Vice President and Senator Pro Tempore. We have also appointed senators to our Government Operations Committee and other internal committees.

Additionally, we appointed one justice, allowing us to begin holding judiciary review meetings to ensure accountability within our association.

We successfully passed a resolution, in collaboration with the library, opposing any further reallocation of library space or its use as "swing space." We are also working on a resolution regarding a common hour at Bakersfield College.

We still have 8 vacant senator positions and 3 justice positions. We would appreciate the Curriculum Committee's assistance in sharing these opportunities with students and encouraging faculty to recommend students who would be strong candidates.

Lastly, due to my class schedule, I will unfortunately be unable to continue serving on the Curriculum Committee in Spring 2027. I appreciate the opportunity to have served on this committee and represented the student voice.
