

**Social and Behavioral Sciences & Human Services December 2019 Report**  
**Prepared by Christina Howell, Faculty Lead**

Progress:

- We had a great November meeting. We identified a need (more Soc B2 sections) and then were able to get those sections offered and available to the students.
- We are planning a faculty discussion for our students in January.
- We are planning a former students from BC who went on to CSUB panel for February.
- We are planning a job fair either in March or April.

Challenges:

- We have trouble getting a representative to attend from each area, our schedules just don't match.

Questions:

What was decided about where History belongs?
