

Okta set up for KCCCD and Bakersfield College

In the coming weeks and months Okta will be replacing both DUO and Portal Guard. Portal Guard is the application used for Single Sign On (SSO) and DUO is the application being used for Multi-Factor Authentication or making sure that you are you before you are allowed to access certain district and campus resources.

Okta set up for KCCD and Bakersfield College

- Many of us will need to have both Okta and DUO installed at the same time.
- There is currently no plan to move JAG and Rdweb to Okta, they will remain on DUO for now.
- Even if you were not required to use DUO in the past to access email or other applications, you will be required to use Okta.
- There are different ways to verify: a push, a phone call, a SMS message or an authenticator.
- There will be targeted emails sent to users of specific apps as those apps are moved to Okta.
- Walk through setup

Okta set up for KCCD and Bakersfield College

- Okta for student
 - Students will need to set up an Okta account in order to access BC applications.
 - This is a one-time setup, and there are no other requirements from the students.
 - Students will not be required to use Multi-Factor Authentication at this time.
- Walk through setup
 - <https://support.kccd.edu/shp/kccd/viewarticles?articleId=1563959¤tPage=o&selectedValue=okta>

Okta set up for KCCD and Bakersfield College

- There have been many attempts to infiltrate our network this year.
- Spam email
 - Phishing attempts/account takeover
 - Financial attempts
- Ransomware
- KCCD is going to start requiring users who will need to access resources when they are not in north America to submit a ticket in order to make those resources available.

Projected Schedule

Blackboard			Bunch systems together/ Full User communication	Mar 30-Apr 1; Apr 13-15, May 2-13	Wed 5/18/22
Microsoft 365			Bunch systems together/ Full User communication	Move to 1st system. Mar 30-Apr 1; Apr 13-15, May 2-13	Wed 5/18/22
