19	-The technology you had a problem with. A: I had an issue with Inside BC, and Starfish. -Specific problem A: Inside BC to add classes is too complicated. I don't like how each action requires a separate website. For example, if you want to add a class, you get kicked out of the Main BC website, and enter another website, that does not have a U.I that is up to date. To add a class is too complicated when most students have modern iPhones and you can drag and drop. As a student who attended BC before Starfish, I don't like how I am forced to used Starfish. I am not a fan of the U.I, it appears to be a little outdated, and can be confusing at times to use. When you compare the Starfish Calendar to Google Calendar, the Google Calendar is easier to use. And I do not understand why appointments are made in Starfish when you automatically get at Google Calendar appointment. -Location (site/building) A: Inside BC, and Starfish	11/18/2021 2:45 PM

31	Taking classes online, I have had a variety of technology issues relating to my classes. Some of these issues include: me paying for material more than twice per semester due to campus/private industry miscommunications, assignments not showing up when instructors indicate they are available, I have missed assignments due to technology issues and professors not willing to comprehend these issues (0 score), it has been the biggest anxiety I have faced attending a college.	11/18/2021 11:21 AM

54	No real posing problems	11/13/2021 5:01 PM
55	Often times with the use of canvas and other apps to acquire and use textbooks, it is too much for tablets or phones. These tools are ok for some studying and email related items, and good for on the go audio books. But the best system when learning from home has been a PC.	11/13/2021 12:12 PM
56	Maybe not your issue but a class related issue, I am wondering when students use shared computers for a class, how much of information is being shared between the different accounts that are being accessed through that computer terminal. That is, I was having a problem with a licensing agreement with one of the programs that I was using; if a student in another class improperly closed out or saved the program another student has to use in another class, would that affect the licensing situation for other students. Or, here is one, since cookies probably cannot be erased between session on the computer, how does that affect the shared experience between different users of a public terminal. I go to school for the intended class, but that does not mean the person after me will or the person before me either; so, how can a student protect their computer account from unwanted things that may affect their computer account. After all, it does not take much for something to become a trojan, keylogger, or other type of malware.	11/13/2021 10:48 AM

59	The website can be hard to navigate and frustrating when it comes to trying to find things, our course add/drop pages are very outdated and make things difficult to find certain classes.	11/12/2021 1:55 AM
60	I once used ALEKS and I had many answers right when the ALEKS program would mark them as wrong. With one wrong answer it makes you start all over again in that specific category. In the end, I gave up on the class because of this constant error. It was frustrating, I couldn't keep up with the errors. There was no way of proving the errors either because I worked from home and once it marked it wrong, all my progress would erase. ALEKS is a horrible program in all honesty.	11/12/2021 12:08 AM
61	No real problems, but I have developed some ergonomic issues (numbness and pain) in my neck and shoulders from working on my laptop at home the past 18 months. I am still at home, so I am in the process of trying to get a better work station set up so I have correct ergonomics per my doctor's request. Hopefully, I will have a monitor (so I can elevate it to avoid neck pain) and a normal keyboard (so I am no longer working on a small laptop keyboard with my arms forced inward to type) soon.	11/11/2021 10:41 PM

73	Connecting to wifi, clear instructions about how to connect to it, more interactive learning in classes to where no materials needed to be brought, at the beginning of class tablets are handed out and everyone is to follow along, and tests/quizzes/exams are given, grades are known immediately so students have no concerns about why they did so poorly which means less grading for teachers. So more time could be spent on instruction instead of fundling around for materials when tons of students are late.	11/10/2021 9:47 PM

#	RESPONSES	DATE
1	Bc requires me to have a phone for on campus pass, to use a QR code when entering buildings but not all students have a phone, this makes them unable to do the daily check ins or scan their QR codes.	11/22/2021 2:51 PM
2	Add that button	11/21/2021 9:15 PM
3	Make sure ALL teachers allow use of laptops etc. For taking notes, class work, etc.	11/20/2021 10:01 PM
4	Make it more accessible	11/20/2021 2:33 PM
5	Keep up the good work.	11/20/2021 1:14 PM
6	Have presentation related to how to use technology (like how to use a cloud for storage, how to use Microsoft suite provided by the school, etc.)	11/19/2021 9:45 PM
7	I think they should continue doing what there doing I had nothing but good experiences.	11/19/2021 1:02 PM
8	Perhaps expand the wifi use to hit the courtyard more, but I'm sure that when the new building is built it will help with that.	11/19/2021 12:48 PM
9	There very good	11/19/2021 7:17 AM
10	It's all good to me	11/19/2021 5:47 AM
11	Give small description when computer mouse is over a clickable link	11/18/2021 11:50 PM
12	It feels like Instructors should have more formal training with Canvas, especially those very familiar with an in person semester.	11/18/2021 10:19 PM
13	N/A	11/18/2021 9:54 PM
14	Upgrade the Wi-Fi system, as it appears to be much slower than desired when attending classes at the main campus.	11/18/2021 8:45 PM
15	STARFISH DEGREE PLANNER... I miss the what if options for degrees	11/18/2021 7:24 PM
16	Don't make me put a pin on my phone just so I can read my BC email. It won't be the end of the world if someone reads my BC email... Besides, if I lose my phone I know how to find it, and the person who has it...	11/18/2021 7:15 PM
17	Please add better wifi	11/18/2021 7:04 PM
18	Does our school offer wifi for homeless or people unable to obtain high speed internet access for school?	11/18/2021 6:28 PM
19	I likes the original degree planner because it was easier to navigate so I was very disappointed when you guys changed it to starfish. I don't speak for everyone but I think the first degre eplanner was easier to understand and navigate.	11/18/2021 6:18 PM
20	I really like Canvas and the Inside Portal. But it would be nice if teachers could be taught to use Canvas. Some are really good with Canvas, and some professors I've had struggle with Canvas and it can make the class/assignments confusing.	11/18/2021 6:17 PM
21	Nothing	11/18/2021 5:35 PM
22	Modern easy to maneuver programs.	11/18/2021 5:20 PM
23	Better communication when an issue is being worked on and when resolved.	11/18/2021 5:13 PM
24	No comment	11/18/2021 3:53 PM

25	Stop enforcing tyrannical covid response toward Safety-ism. Stop discriminating against people not wanting to take the shot, and punishing for not doing so. It is unconstitutional, and against my civil liberties. That vaccine doesn't protect you from covid or stop the spread. This is about control and government money.	11/18/2021 3:35 PM
26	Bakersfield College should emphasize the technology resources that are available to students to help better support academic success.	11/18/2021 3:23 PM

28	As a student with ADHD BC can better support my academic success by offering an easier to use modern Text to speech software such as Speechify, or natural text reader. And also offer a faster and stronger wifi signal. And also offer BC support with student who use apple devices.	11/18/2021 2:45 PM
29	I think that the way things are currently are more then good enough and that they should remain the same.	11/18/2021 1:41 PM
30	Bakersfield college (Delano) needs better computers, they freeze and they have slow internet access.	11/18/2021 1:19 PM
31	I think everything is good, just wish I had a MI-fi card for our high school work some districts dont allow us on their wifi.	11/18/2021 1:11 PM

33	I think this department is extremely helpful and supportive. One of my students had an issue and it wasn't getting resolved through the help line, so I called and someone from the department fixed the problem in about 5 min. the student was hugely grateful and appreciative. I appreciate the responsiveness of this department.	11/18/2021 12:54 PM
34	Speed up loading	11/18/2021 12:51 PM
35	So far it's been perfect	11/18/2021 12:34 PM
36	At the moment I have no problems with my technology.	11/18/2021 12:33 PM
37	WiFi access	11/18/2021 12:19 PM
38	not pay for print, the whole process is so stupid	11/18/2021 12:16 PM
39	Having more time to test and only take 2 or 3 chapter to review and have a study guide and paper charts or lab figures on paper to label on our own and have 2 an half hour to test and be o all on line	11/18/2021 12:15 PM
40	Classes some student are unable to attend inperson class and has limited open online class and some are unfortunate student that arent priority and wanting to finish there classes but then they cant due to no open alot for the class they are needing.	11/18/2021 11:45 AM

42	ensure that professors that conduct classes via online platforms are involved with the class. In one class alone, there are ZERO weekly recorded lectures, the ppt's for the course are copy pasted from another university and instructor, over 70% of the included or provided hyperlinks for addtional or supplemental instruction are dead or not supported because we are not students at that university, the message board for students has not been monitored or the professor has never deemed any question posed worthy of a response, email response from the professor is hit or miss, it comes no where near the stated time frames in the syllabus, nor is feedback provided if asked for. The professor only sends out a weekly email stating use your schools resources if you have a problem. Well the problem is the professor is not teaching anything, everything is completely left up to the student, except the test, no study guides provided.	11/18/2021 11:31 AM
43	Sometimes the sites [Canvas and InsideBC] crash and so will just restart again.	11/18/2021 11:31 AM
44	Improve Wi-fi	11/18/2021 11:30 AM
45	Required professors to pre-test any technology programs they use for their curriculum. Actually have a person available to assistant students with technology issues - I have had email responses sent after deadline dates, and professors unwilling to accept documented technology issues.	11/18/2021 11:21 AM

47	Update the BC website	11/18/2021 11:17 AM
48	A ceiling projector and wireless connection in FA23 would be great.	11/18/2021 11:11 AM
49	BC college can try and work on better service and performance of stable connection when students take quizzes and final exams. Sometimes students have issues with their wifi at home or with their computers and have to rely on wifi somewhere else and may have to use their phones or other devices. When taking a quiz/exam online, the connection on phones is slow. Sometimes we can't finish the quiz or it's to slow.	11/18/2021 11:08 AM
50	As an employee of the Student Services Department (tutoring CSS building) we get a lot of students coming to us to learn the basics of canvas or access to their MyBanWeb, and we do not offer any services related to this. Now we can answer their questions because we as students utilize these services daily, but redirecting technologically-illiterate students to the Renegade Student Hub leads one to think that the R.S.H. is not a well-known service on campus. Perhaps professors who have any sort of online materials or requirements for their class should have informational fliers or brochures to hand out to students in need.	11/18/2021 11:04 AM
51	I don't have any complaints or suggestions for improvement. I think the technology is already helpful and effective.	11/18/2021 11:04 AM
52	I didn't experience any problems with BC technology, it's fine the way it is	11/18/2021 10:56 AM
53	WiFi boxes to use while not at home or campus (portable WiFi box)	11/18/2021 10:55 AM

58	I am sure the technology is fine, but earlier on, in the Fall 2021, resources were not available because of Covid restrictions. Technology, though greatly helpful, does not replace the human factor. Being able to seek help in person would be immensely appreciated especially since we are all supposed to be vaccinated.	11/17/2021 7:11 PM

63	I recently got an iPad, and I don't know how others use it but I think it's method of note taking and I love it	11/16/2021 11:57 AM
64	Make it easier to contact counselors, advisors, financial aid, etc. through the phone instead of forcing people to use the "virtual lobby" or email. Get rid of any and all cOvId mandates/restrictions. They are pointless and prevent students from being able to access the campus. Masks don't work, not everyone wants a vaccine, and I'm not letting the school track me by being forced to use an application on my phone to step foot on campus. Also, making students sanitize work areas is ridiculous, you employ janitors, make them do their job.	11/15/2021 11:56 PM
65	Educate asynchronous professors on the Canvas messaging system or including an email in their syllabus for students to contact.	11/15/2021 7:15 PM
66	N/A	11/15/2021 4:36 PM

69	Have more online classes for students who are working on their degree remotely.	11/14/2021 8:59 PM

70	WiFi for student at home	11/14/2021 7:21 PM
71	A way to improve the technology at BC would be to have better wifi connections.	11/14/2021 6:34 PM
72	The college should inform students about the technologies. I do know that the professor put the information on the syllabus or emails. I only know of the tech because of the syllabus or emails. So, advertising on how the technology works and supports students should be a priority.	11/14/2021 6:32 PM
73	So far no real concerns.	11/13/2021 5:01 PM
74	Hopefully Bakersfield College will continue to strive for the best technology whether on campus or at home.	11/13/2021 12:12 PM
75	Nothing; the service seems top-notch, it is hard to forecast what you do not know you need. Rather, having the service available is better than not having anything at all. It is like saying we need the best and greatest for it to work; hold on, there, nobody should be a beta tester for anything because you would be investing probably money that you do not have or do not really want to waste. I think the best we can have is a reliable internet service, whether that is wifi, mifi, or a fast wired service, which all boils down to, if metering will be involved or not. A lot people 'back in the day' so to speak used university t1 to t3 connections in dorms to download movies or games, I guess the trick is how would technology services be able to throttle or completely shutdown things like this. I don't know, I do not have the answer to that one. And, the problem with that intensifies with the introduction of e-sports, online processing of graphics eats up bandwidth and a college, especially a community college's main purpose is not to purport games or gaming. But, then I am older now; I suppose the younger community would disagree.	11/13/2021 10:48 AM
76	Online classes should meet as a class with instructor at least twice a week. Not being taught the way it is now, do why pay thousands of dollars to just read a book to learn from?	11/12/2021 7:49 PM
77	Make it easier for professors to airdrop or cast from their laptops to the projection units. Having to hook up an HDMI cable is antiquated.	11/12/2021 8:49 AM
78	The wifi could be a little better.	11/12/2021 2:09 AM
79	Make it so that our enrollment pages are integrated with our degree planner on Star fish so we don't have to tab back and forth, also make a website more catered towards everyday students and try to get some student feedback when/if these changes are made.	11/12/2021 1:55 AM
80	Make starfish more user friendly. And allow for face to face in person appointments with counselors.	11/12/2021 12:38 AM
81	I feel the IT at support at BC is wonderful!! They have been fast and responsive whenever I have needed anything!! :)	11/11/2021 10:41 PM
82	You guys are doing a great job!!	11/11/2021 7:24 PM
83	Integrate the various systems to simplify our technological support. You need one GOOD computer system to serve students, not a bunch of relatively unknown, underused systems.	11/11/2021 5:21 PM
84	Provide faculty with laptop computers, even if we have a desktop one on campus. With the move to so many classes being held online or hybrid, there is the need for both.	11/11/2021 2:28 PM
85	Improve connection to the wifi. The one time I was able to connect the speed was horrendous. I could not load anything on my laptop when I tried to use it for my class.	11/11/2021 12:07 PM
86	more face to face teaching	11/11/2021 11:26 AM
87	Keep the WiFi up to date.	11/11/2021 10:11 AM

95	Instead of craming everyone in a classroom to where only so many students can fit. Have more outdoor classes held, or if in a room, make more like the auto shop to where big wide doors can be open for heavy ventilation. And bigger desks such as the ones that architects or artists use that have bar style chairs.	11/10/2021 9:47 PM

101	I'm not sure how Wi-Fi services work, but maybe a better provider?	11/10/2021 8:30 PM
102	provide unlimited zoom meetings for students to meet online for group sessions.	11/10/2021 8:08 PM

104	¯_(ツ)_/¯	11/10/2021 6:58 PM
105	Make technology accessible to students who do not own a computer or have access to wi-fi when campus is closed. The closure of the library has a higher impact then people think.	11/10/2021 6:57 PM
106	Offer all classes online	11/10/2021 6:49 PM
107	Canvas notifications are a bit weird, sending 6+ notifications when only one is necessary. But overall is effective.	11/10/2021 6:05 PM

110	Keep your flyers posted around campus updated with current events along with access to tech. Old flyers give the campus an out-of-touch with current events vibe.	11/10/2021 5:36 PM
111	Maybe imporve that chat bot from the bc website for new comers to find and search their needs more spiecfically.	11/10/2021 5:28 PM
112	Provide tablets or laptops	11/10/2021 5:24 PM

114	It's not really a big concern or issue, but the internet at BC Delano Campus has shut down twice. The first time it was off for 40/50 minutes and the second time about 5/10 minutes. I was using it to access Zoom but I just switched to my phones data meanwhile it was being fixed.	11/10/2021 5:16 PM
115	Get rid of masks for the vaccinated. Faster internet	11/10/2021 5:04 PM
116	I am not sure.	11/10/2021 4:55 PM
117	Fix slow computer issues.	11/10/2021 4:52 PM
118	Please fix the wifi on the main campus!	11/10/2021 4:41 PM
119	cameras in classrooms to broadcast live lectures for students online	11/10/2021 4:33 PM
120	last time i needed a prerequisite cleared i had to email MULTIPLE people just to get it cleared. I feel mainly because the professor was reluctant to emphasize the urgency of the matter. Depending on the professor I get help from I get prerequisite clearance times from a week to over a month difference. A stream lined portal to the DIRECT PERSON who needs to clear the prerequisite would help a lot. especially when prerequisites need to get cleared, after registration is open and classes fill up quick.	11/10/2021 4:29 PM

121	Better tools, Canvas is alright but not great and often messy depending on the level of instructor quality put into modules. We as students are expected to know every in and out of these systems it should only be fair that the instructors do as well.	11/10/2021 4:27 PM
122	Wi-fi at home	11/10/2021 4:21 PM
123	Web assign can be difficult as far as how to properly type in the right answers.	11/10/2021 4:17 PM
124	Please add more online zoom classes. I attempted to enroll into classes with early registration and 1 out of 7 options was online only.	11/10/2021 4:09 PM
125	Bakersfield college should offer more classes online and continue virtual lobby's through zoom.	11/10/2021 4:07 PM
126	It would be nice to see Bluetooth enabled on the library PCs since wired headphones are increasingly uncommon, but I understand this is probably a hardware/security/nightmare to support issue.	11/10/2021 4:05 PM
127	Offer more of the gen Ed classes after 5pm, either online or in person, as I work a 9-5 job making decent money but can't switch to a lower paid job to attend classes during the day. Education is basically on hold.	11/10/2021 4:05 PM
128	Continue offering many online classes	11/10/2021 4:03 PM
129	Stronger wifi signal so we don't have to use a personal hot spot for testing.	11/10/2021 4:02 PM

156	bettter internet connections on campus	11/10/2021 3:18 PM
157	Have professors be better knowledgeable which I understand it's their first time or so but at least learn not to be so grade heavy with exam or quizzes cuz we all have technology issues or WiFi issues , especially for my Chemistry class using proctoral for using exams .. and it's horrible and she grades very heavily	11/10/2021 3:18 PM
158	I think it would be more easier if professors allowed the use of technology (tablets, laptops, etc.) while in class, but I understand that that decision is up to them.	11/10/2021 3:17 PM
159	For me the technology has never been a problem.	11/10/2021 3:16 PM
